Legal Research in New Zealand / Russell, M-R
New Zealand: Lexis Nexis, 2015
9781927248034
\$ 115.00

Legal Research in New Zealand Focuses on the elements and sources of New Zealand law with emphasis on developing an efficient research methodology, and the skills

for comparative assessment of alternative legal resources. There is also guidance on carrying out legal research involving other (especially related) Jurisdictions.

Legal Research in New Zealand provides a detailed examination of the process of legal research. Aimed primarily for use by law students the book is presented in three parts.

- Part 1 sets the parameters of the process: defining legal research and presenting its typologies; identifying the main types of legal research methodologies; providing frameworks for undertaking the legal research process; examining the skills required; detailing the requirements for research integrity; and covering the practicalities of selecting a topic and refining a research question.
- Part 2 addresses the fundamentals of dealing with legal information: the Specialist nature of legal language; types and formats legal information; how law libraries present legal information; and practicalities for searching in the online environment.
- Part 3 provides guidance for specialist areas of legal research: Kaupapa Maori legal research; Maori and indigenous legal issues; law in other jurisdictions; public international law; historical legal research; and an introduction to the use of legal theory for legal research.

Legal Research in New Zealand explores various legal sources, how to find them and how to go about using them in a practical and user-friendly style. It is a valuable resource for all students of New Zealand law.

The New Zealand Legal System: Structures and Process, 6th edition / Ruru, J; Scott, P; Webb, D
New Zealand: Lexis Nexis, 2016
9781927248188
\$ 100.00

A Comprehensive introduction to our legal system, the institutions that comprise it, and an examination of the way law is created and implemented within it.

The New Zealand Legal System: Structures and processes is an introductory text for first-year law students at Aotearoa New Zealand's universities. Written in a clear

straightforward manner that is accessible and easy to follow, The New Zealand Legal System looks at the structures and processes that define and shape our law (the New Zealand constitution, Te Titiri o Waitangi, New Zealand's court system and the legal profession) and provides a framework for understanding, interpreting and applying legal rules for those coming to the topic of law for the first time.

This edition has been revised and updated to incorporate changes to legislation and statute law, and in particular now includes an expanded discussion of tikanga Maori, Maori and the constitution, and the bill of Rights. It retains appendices containing practical tools and techniques to help students with their writing and research.

Proceeds of Crime Law in New Zealand / McKenzie, H.
New Zealand: Lexis Nexis, 2015
9781927313053
\$ 100.00

This act considerably altered the situations in which property may be considered

‘trained’, or belonging to someone who has unlawfully benefited from ‘significant criminal activity’, In a fundamental shift from the preceding Criminal Proceeds Act 1991, the new Act does not require a conviction. In this setting, criminal and civil forfeiture is increasingly being invoked by the Commissioner of police as an additional tool to help target organised crime. Practitioners will benefit from proceeds of crime Law in New Zealand, which provides guidance on the Act’s provisions and machinery, the growing body of case law, and the status of a conceptually criminal regime which engages the civil procedure and civil standard of proof.

This book will provide practitioners with a vital, practical reference resource in this new and still relatively unfamiliar area of New Zealand’s criminal Law.

Hinde on Commercial Leases, 3rd edition / Hinde, G.

New Zealand: Lexis Nexis, 2015

9781927313404

\$ 190.00

A lease is a hybrid: part property and part contract. When lease came to be recognised as estates in land – albeit estates of less than freehold – the courts applied to them many of the concepts of the law of real property. In recent times, however, it has been recognised that, particularly in the case of commercial leases, the tenant is often more interested in the contractual right to use the property than in the leasehold estate in the land. Principles of the law of contract are therefore

being applied to leases.

Hinde on Commercial leases contains the full text of chapter 11 of the loose-leaf version of Hinde McMorland and Sim Land in New Zealand, making the material in that chapter available to practitioners in one convenient volume. It is a modern exposition of the law relating to leases and tenancies (other than residential tenancies). It provides that busy practitioner with up-to-date practical guidance when facing the many issues that may arise between landlord and tenant, Australian and English cases. References are also provided for English and Australian texts as well as periodicals.

Dr George Hinde, Emeritus Professor of law, Auckland University was an eminent barrister with extensive experience both teaching and working in the area of land law. He was a leading author and published widely on the topic, including as co-author of Hinde McMorland and Sim Land Law in New Zealand.

The New Zealand Bill of Rights Act: A Commentary, 2nd edition / Butler, A.; Butler, P.
New Zealand: Lexis Nexis, 2015
9781927183601 / Pb
\$ 210.00

New Zealand Bill of Rights Act: A Commentary, 2nd edition, is the authoritative text on the law relating to the New Zealand Bill of Rights Act 1990.

New Zealand Bill of Rights Act: A Commentary, 2nd edition, is the authoritative text on the law relating to the New Zealand Bill of Rights 1990. Written in a lively style, the commentary contains a detailed analysis of this short but important piece of constitutional legislation.

Each chapter of the book follows a pattern of outlining similar provisions in comparable human rights systems (domestic and international), discussing the purpose of each right or provision in issue, engaging in a detailed examination of the meaning of the text of each provision, examining the extent to which justified limits can be placed on guaranteed rights and freedoms, and concluding by considering issues related to remedies where relevant.

This second edition reflects the author's many years of combined experience in human rights law as both practitioners and academics.
Comparative analysis is a strong feature of the commentary.

Throughout, the authors evaluate and critique New Zealand and overseas decisions and offer their own views as to how Bill of rights law should develop in the future. The book's accessible style, its strong description and analysis of New Zealand case law, and its suggestions as to future developments mean that the commentary will appeal to practitioners, judges, academics, law students and policy advisors.
