Tracing China : A Forty-Year Ethnographic Journey / Helen F. Siu

Tracing China's journey began from exploring rural revolution and reconstitutions of community in South China. Spanning decades of rural-urban divide, it finally uncovers China's global reach and Hong Kong's cross-border dynamics. Helen Siu traverses physical and cultural landscapes to examine political tumults transforming into everyday lives, and fathom the depths of human drama amid China's frenetic momentum toward modernity. Highlighting complicity, Siu portrays how villagers, urbanites, cadres, entrepreneurs, and intellectuals—laden with historical baggage—venture forward. But have they victimized themselves in the process?

This essay collection, informed by critical social theories and shaped by careful scrutiny of fieldwork and archival texts, is woven by key historical/anthropological themes—culture, history, power, place-making, and identity formation. Siu stresses process and contingency and argues that culture and society are constructed through human actions with nuanced meanings, moral imagination, and contested interests. Challenging the notion that social/political changes are mere linear historical progressions, she traces layers of the past in present realities.

Cross-cultural relations are spatial relations. *Enclave to Urbanity* is the first book in English that examines how the architecture and the urban landscape of Guangzhou framed the relations between the Western mercantile and missionary communities and the city's predominantly Chinese population. The book takes readers through three phases: the Thirteen Factories era from the eighteenth century to the 1850s; the Shamian enclave up to the early twentieth century; and the adoption of Western building techniques throughout the city as its architecture modernized in the early Republic. The discussion of architecture goes

beyond stylistic trends to embrace the history of shared and disputed spaces, using a broadly chronological approach that combines social history with architectural and spatial analysis. With nearly a hundred carefully chosen images, this book illustrates how the foreign architectural footprints of the past form the modern Guangzhou.

Seemingly messy and chaotic, the landscapes and urban life of cities in Asia possess an order and hierarchy that often challenges understanding and appreciation. With contributions by a cross-disciplinary group of authors, *Messy Urbanism: Understanding the “Other” Cities of Asia* examines a range of cases in Asia to explore the social and institutional politics of urban informality and the contexts in which this “messiness” emerges or is constructed. The book brings a distinct perspective to the broader patterns of informal urban orders and processes as well as their interplay with formalized systems and mechanisms. It also raises questions about the production of cities, cityscapes, and citizenship.

Yoshitomo Nara is recognized as one of the most influential artists of the day. His works are very accessible, so much so that at times we do not look hard enough because we feel we understand them already. But how much do we really know about his angry, yet cute looking little girls? How is it that we all feel we recognize the emotions being portrayed? What makes his art so relevant to such a wide range of viewers?

Following from Asia Society Hong Kong Center's preceding exhibition, *Life is Only One: Yoshitomo Nara*, this publication is not only a compilation of the works in the exhibition, but also an extension with the inclusion of other works and essays that present the artist and his art from his life experiences and memories. Extra thoughts into his inspirations are offered by looking at his childhood, his time in Germany, his love for music, and the aftermath of the 2011 Earthquake. Like small

pieces of a puzzle, they piece together little-known stories about the artist and above all his thoughts on life.

Glamour of the Jao's Lotus : Touring Exhibition Catalogue of Lotus-theme

In the recent decade, "lotus" has been Professor Jao Tsung-i's major painting subject; meanwhile, he has also developed new techniques and methods for this type of painting. Therefore, lotus painting is also a symbol of his unceasing exploration of art. Professor Jao indicates that there is a reason why he loves to do lotus painting. His father named him "Tsung-i", literally meaning "modeling yourself after Zhou Dunyi", because his father hoped that he could learn after Zhou. Zhou was a master of the Neo-Confucianism in the Song dynasty who loved lotus, and his *Ode to Lotus* has been the most important essay praising lotus since

then. Nonetheless, according to Professor Jao, Bada Shanren's "Flowers on the River" is the major agent to induce him of his unique *Jao's Lotus*.

There was unanimity among the Jao Tsung-I Petite Ecole of The University of Hong Kong, the Jao Tsung-I Petite Ecole Fan Club, and the Jao Studies Foundation that "lotus" is the theme of a touring exhibition in China this year. Therefore, *Glamour of the Jao's Lotus: Touring Exhibition Catalogue of Lotus-theme Artworks by Professor Jao Tsung-i* demonstrates the lotus artworks of Professor Jao, which reveals his idea of "amalgamation of scholarship and art" and his everlasting creativity.

Illustrious Illuminations presents a selection of illuminated Christian Manuscripts from the McCarthy Collection. Ranging in date from the High Gothic to the High Renaissance (1250–1540), the miniature paintings give evidence of the talent and culture connected to the art of book illustration. Many of the vibrant hand-copied volumes contain some of the finest illustrations ever produced across Europe, well before Johannes Gutenberg introduced the printing press around 1454. These particular illustrations were chosen from Bibles, books of hours and psalters in order to exemplify a shift in style, from Gothic to Renaissance lines, which likewise was apparent in the architecture and paintings produced under the auspices of the Church. The often harder, more contrasting, lines of the Gothic give way to the Renaissance's altogether natural contours, as well as to softer and increasingly personal facial features.

This catalogue is published to coincide with the UMAG exhibition *Mexican Modernity: 20th-Century Paintings from the Zapanta Mexican Art Collection*. *Mexican Modernity* displays, through 40 paintings, the development of painterly styles and social representations, from the more European-influenced compositions to predominantly indigenous themes that regularly appeared as liberal Mexico sought to distinguish itself from its Spanish colonial past. The exhibition aims to introduce the different, and at times unique, styles, such as muralist art and neomexicanismo, and to highlight the importance that local painters played in the development of neo-expressionist and postmodern art, as well as the colour palette and compositions that are today celebrated as significant contributions.

Large public screens have now become a ubiquitous part of the contemporary cityscape. Far from being simply oversized televisions, the media experts contributing to *Ambient Screens and Transnational Public Spaces* put forward a strong case that such screens could serve as important sites for cultural exchange.

Advances in digital technology spell the possibilities of conducting mobile modes of interaction across national boundaries, and in the process expose the participants to novel sensory experiences, giving rise to a new form of public culture. Understanding this phenomenon calls for a reconceptualization of “public space” and “ambience,” as well as connecting the two concepts with each other. This pioneering study of the impact of media platforms on urban cultural life presents a theoretical analysis and a history of screens, followed by discussions of site-specific urban screen practices on five continents. There is also a substantial examination of the world’s first real-time cross-cultural exchange via the networking of large public screens located in Melbourne and Seoul.

Part historical drama, part thriller, and part comedy, Tsui Hark's *Peking Opera Blues* (1986) invites—if not demands—examinations from multiple perspectives. Tan See Kam rises to the challenge in this study by first situating Tsui in a Sinophone context. The diasporic director explores different dimensions of “Chineseness” in the film by depicting competing versions of Chinese nationalism and presenting characters speaking two Chinese languages, Cantonese and Mandarin. In the process he compels viewers to recognize the multiplicities of the Chinese identity and rethink what constitutes cultural Chineseness.

The challenge to a single definition of “Chinese” is also embodied by the playful pastiches of diverse materials. In a series of intertextual readings, Tan reveals the full complexity of *Peking Opera Blues* by placing it at the center of a web of texts consisting of Tsui's earlier film *Shanghai Blues* (1984), Hong Kong's Mandarin Canto-pop songs, the “three-women” films in Chinese-language cinemas, and of course, traditional Peking opera, whose role-types, makeup, and dress code enrich the meaning of the film.

In Tan's portrayal, Tsui Hark is a filmmaker who makes masterly use of postmodernist techniques to address postcolonial concerns. More than a quarter of a century after its release, Tan shows, *Peking Opera Blues* still reverberates in the present time

Unruly People : Crime, Community, and State in Late Imperial South China /

Unruly People shows that in mid-Qing Guangdong banditry occurred mainly in the densely populated core Canton delta where state power was strongest, challenging the conventional wisdom that banditry was most prevalent in peripheral areas. Through extensive archival research, Antony reveals that this is because the local working poor had no other options to ensure their livelihood.

In 1780 the Qing government enacted the first of a series of special laws to deal specifically with Guangdong bandits who plundered on land and water. The new law was prompted by what officials described as a spiraling “bandit miasma” in the province that had been simmering for decades. To understand the need for the special laws, *Unruly People* takes a closer look at the complex relationships and interconnections between bandits, sworn brotherhoods, local communities, and the Qing state in Guangdong from 1760 to 1845.

Antony treats collective crime as a symptom of the dysfunction in local society and breakdown of the imperial legal system. He analyzes over 2,300 criminal cases found in palace and routine memorials in the Qing archives, as well as extant Chinese literary and foreign sources and fieldwork in rural Guangdong, to recreate vivid details of late imperial China’s underworld of crime and violence.

The Cold War was a distinct and crucial period in Hong Kong's evolution and in its relations with China and the rest of the world. Hong Kong was a window through which the West could monitor what was happening in China and an outlet that China could use to keep in touch with the outside world. Exploring the many complexities of Cold War politics from a global and interdisciplinary perspective, Hong Kong in the Cold War shows how Hong Kong attained and honed a pragmatic tradition that bridged the abyss between such opposite ideas as capitalism and communism, thus maintaining a compromise between China and the rest of the world.

The chapters are written by nine leading international scholars and address issues of diplomacy and politics, finance and economics, intelligence and propaganda, refugees and humanitarianism, tourism and popular culture, and their lasting impact on Hong Kong. Far from simply describing a historical period, these essays show that Hong Kong's unique Cold War experience may provide a viable blueprint for modern-day China to develop a similar model of good governance and may in fact hold the key to the successful implementation of the One Country Two Systems idea.

The Later Tang was the first of several ephemeral states created by the Shatuo Turks in tenth-century China and Li Cunxu, a martial genius, was its founder. In fifteen years, he turned a small satrapy on China's periphery into a powerhouse capable of unifying the north and much of the southwest. He governed on the principle of racial inclusion and refused to set the ruling minority above the Chinese majority through special privileges. As someone highly literate and artistically gifted, Li Cunxu seemed uniquely capable of bridging rifts within his culturally diverse ruling elite. Unfortunately, he shared the sort of self-absorbed narcissism typical of dynastic founders, which contributed to his denouement merely three years into the reign.

The Later Tang dynasty presided over the epic changes that occasioned the Five Dynasties, when China evolved from a moribund medieval state dominated by hereditary elites to one organized around individual merit, an essential element of the nation-state. Critical to the evolution of governance in the tenth century was the rule of military magnates without vested interest in the old order.

Foreigners under Mao: Western Lives in China, 1949–1976 is a pioneering study of the Western community during the turbulent Mao era. Based largely on personal interviews, memoirs, private letters, and archives, this book ‘gives a voice’ to the Westerners who lived under Mao. It shows that China was not as closed to Western residents as has often been portrayed.

The book examines the lives of six different groups of Westerners: ‘foreign comrades’ who made their home in Mao’s China, twenty-two former Korean War POWs who controversially chose China ahead of repatriation, diplomats of Western countries that recognized the People’s Republic, the few foreign correspondents permitted to work in China, ‘foreign experts’, and language students. Each of these groups led distinct lives under Mao, while sharing the experience of a highly politicized society and of official measures to isolate them from everyday China.

CHITTY ON CONTRACTS, HONG KONG SPECIFIC CONTRACTS, 5TH EDITION / Brian Gilchrist

Hong Kong : Sweet and Maxwell, 2016

9789626618899

\$ 120.00 /HB

Chitty on Contracts 5th Edition provides the essential updates to drafting or interpreting contracts following the introduction of Competition Ordinance (Cap. 691), in December 2015, and the Contract (Rights of Third Parties) Ordinance (Cap. 623), introduced in January 2016.

These significant changes are explored in almost every chapter with exhaustive coverage within:

Employment Law detailing the Contract (rights of third parties) Ordinance (Cap. 623), enforcing right against the employer and an employer's duty to indemnify its employee

Construction Contracts detailing both Competition Ordinance (Cap 691) and Contract (Rights of Third Parties) Ordinance (Cap. 623)

Comprehensive and Authoritative Content

- Mediation content reviewed by Mr. Justice Lam, Vice President of the Hong Kong Court of Appeal.
- Undue influence examines contracts entered into under tremendous inequality of bargaining power, and very often duress.
- Restitution & Unjust Enrichment detailing a new section on Remedies, the essential guidance for legal actions, guiding you to understand how to rectify a wrong right
- Sales of Land highlights an explanation of 'Fixtures' expounded, Definition of 'Normal Common Part', Condition of Property and Chinese customary law added & Naming rights of buildings.

LAW AND JUSTICE IN HONG KONG, 2ND EDITION / Eric C. Ip
Hong Kong : Sweet and Maxwell, 2016
9789626619254
\$ 65.00

The second edition of Law and Justice in Hong Kong offers readers a fully updated account of the legal system of Hong Kong, the only common law jurisdiction in East Asia. Written in a lucid narrative style, it provides a clear explanation of the fundamental principles of Hong Kong law and legal procedure with reference to wider global and regional developments. It also explains the crucial role played by the rule of law in Hong Kong's historic transition from a cluster of marginal fishing settlements into a leading international financial centre over the course of one and a half century.

Fully updated and revised

- Uses new cases and cutting-edge legal scholarship to illustrate the function and structure of law and justice
- Covers latest developments including widespread public debate about the rule of law and judicial independence, the establishment of the Competition Tribunal, the legal boundaries of prosecutorial and police powers, and cross-border legal exchanges between Hong Kong and mainland China

A practical approach to provide a concise & quick summary of fundamental legal and constitutional principles:

- Uses charts and diagrams to enhance understanding of legal concepts
- Includes a concise summary of key points at the end of each chapter

Volume 2

(i) Subsidiary Legislation (Cap. 622A – 622I)

(ii) Cumulative Tables for both volumes

(iii) Index for both volumes

This 2016 Edition Companies Ordinance: Commentary & Annotations examines and analyses the law's effect on Hong Kong during the two years since its implementation, highlighting those new changes that have since been applied to all Hong Kong and overseas companies.

All cases and legal precedents raised over the last 2 years, to corporate governance, compliance and structure. Extensive updates and revisions include:

Part 4: Share Capital. Concepts on share capital, including its creation, transfer and alteration and the mandatory no-par regime's effectiveness is examined.

Part 7: Debentures. The impact of recent precedents on debentures and new requirements for registration of the allotment of debentures and filing of a return of allotment to align with similar requirements for shares is re-examined.

Part 8: Registration of Charges. Examination of the registration of charges by both Hong Kong and registered non-Hong Kong companies – including types of charges requiring registration, procedures and the consequences of non-compliance.

Part 9: Accounts and Audits. The effects of sections 359, 361, and 364 of the Ordinance, facilitating small and medium-sized entities (SMEs) to create more business opportunities.

Part 10: Director and Companies Secretaries. Clarifying the new standard of the director's and company's duty of care, skill and diligence – guiding directors on their duties.

Part 14: Remedies for Protection of Companies' or Members' Interests. Furthering shareholder protection, with more effective rules to deal with directors' conflicts of interests and requiring disinterested shareholders' approval in the case where shareholder approval is required for transactions of public companies and their subsidiaries.

The Companies Ordinance (Cap.622) continues to be the most important piece of legislation enacted by Hong Kong since the handover in 1997. Cap.622 is one of the largest pieces of legislation enacted by the Legislative Council and no business entity is excluded from the newly enacted provisions of law.

Every lawyer, practitioner, academic, as well as company secretary, concerned with Company Law in Hong Kong needs a copy of this two-volume set on their desk!

Private Mergers and Acquisitions in Hong Kong (First Edition) / Simon Luk
Hong Kong : LexisNexis, 2016
9789888359790
\$ 260.00

Private M&A in Hong Kong details the sale and purchase of shares, one of the most common forms of corporate acquisition in the territory. By acquiring part or all of the share capital of a target company, the investor can exercise control over the target company as well as its businesses and assets. Many parties tend to opt for sale of shares over sale of assets because they are simpler and more straightforward. However, as the subject of the transaction involves shares in the target company, parties should carefully consider certain common legal issues when structuring a share acquisition. Private M&A in Hong Kong includes practical examples and explanatory notes to exemplify the procedures and issues in private M&A investments, and illustrates the key considerations involved in such transactions. This book will be a good resource for anyone seeking to understand the main issues, common procedures and documentation involved in private M&A transactions in a common law jurisdiction.

Legal Problems of Economic Globalisation: A Commentary on the Law and Practice / Julien Chaisse

Hong Kong : Wolters & Kluwer (Law & Business), 2015

784p.

9789881395634

\$ 180.00 / PB

This book on International Economic Law intends to create an understanding of business and economic relations across national frontiers. This preface expounds the contemporary legal problems that transactional economics brings to the fore and makes inquiries into international economic law resolution thereof as well as the legal avenues for such resolution. It deals with world's trade practices in the international sphere while including in them the knowledge and practices of established business and emerging practices. Also, economic globalisation has transformed the means by which sovereignty is exercised and therefore the exercise of regulatory authority. This book describes this evolving movement, in the context of global financial regulation, which features the extraterritorial exercise of domestic regulatory authority coupled with the proliferation of transnational networks of regulators.

Content:

- The Foundations of International Economic Law
- The Norms of International Economic Law
- Business Problems of the Global Economy
- Public Policy Problems

Construction Arbitration in Hong Kong: A Practical Guide / Christopher To, James Kwan

Hong Kong : Wolters & Kluwer (Law & Business),2015

328p.

9789881342928

\$ 215.00 /HB

Without doubt, construction is a global business as many construction companies are now venturing into other jurisdictions to compete for business as well as opportunities. Hong Kong although a relatively small place in area, nevertheless the construction industry has a major impact on gross domestic product and is a leading driver of economic growth and development. To understand the environment as well as having sufficient knowledge of how one mitigates potential risks through the various forms of dispute resolution methods and in particular arbitration is becoming important in one's assessment of a project prior to tender.

This unique book, edited by James Kwan and Christopher To and written by well-known practitioners in the field, hopes to provide the readers with the practical knowledge and skills needed to understand the subject as well as to foster the promotion of a better dispute resolution culture in the construction industry often categorised as fragmented and disorganised.

It has also been developed to assist employers, contractors, sub-contractors, suppliers, lawyers, engineers, surveyors, architects, in-house counsels, academics and all those involved in the construction industry in identifying the appropriate dispute resolution mechanisms they can select to assist them in resolving potential disputes thus helping them save time and money in the decision-making process. Construction Arbitration in Hong Kong: A Practical Guide is the only book in the market that offers readers valuable material for their decision-making process. When it comes to dispute resolution, this is the book that every practitioner cannot afford not to have.

It is now almost a cliché to claim that China and the Chinese people have changed. Yet inside the new clothing that is worn by the Chinese man today, Kam Louie contends, we still see much of the historical Chinese man. With contributions from a team of outstanding scholars, *Changing Chinese Masculinities* studies a range of Chinese men in diverse and, most importantly, Chinese contexts. It explores the fundamental meaning of manhood in the Chinese setting and the very notion of an indigenous Chinese masculinity.

In twelve chapters spanning the late imperial period to the present day, *Changing Chinese Masculinities* brings a much needed historical dimension to the discussion. Key aspects defining the male identity such as family relationships and attitudes toward sex, class, and career are explored in depth. Familiar notions of Chinese manhood come in all shapes and sizes. Concubinage reemerges as the taking of “second wives” in recent decades. Male homoerotic love and male prostitution are shown to have long historical roots. The self-images of the literati and officials

form an interesting contrast with those of the contemporary white-collar men. Masculinity and nationalism complement each other in troubling ways. China has indeed changed and is still changing, but most of these social transformations do not indicate a complete break with past beliefs or practices in gender relations.

Changing Chinese Masculinities inaugurates the Hong Kong University Press book series "Transnational Asian Masculinities."
