Bhakti In Religions of the World with Special Reference to Dr. Sri Bankey Behariji /
Chhaganlal Lala
Delhi: B.R. Publishing Corporation, 2023
268p.; 22 cm.
9788170183716
550gm.
\$ 31.25 / hb

Bhakti in religions of the world is a comparative study of the four main religions of the world. This work assumes special importance in light of the fact that communal hatred and discrimination on the basis of religion mark the order of the day. The author has discussed Bhakti and the teachings of noted Bhakti leaders, especially Dr. Sri Bankey Behariji who has bequeathed to posterity a rich heritage of mystico devotional literature.

Sri Krishna: A Socio-Political and Philosophical Study / Ram Chandra Gupta
Delhi: B.R. Publishing Corporation, 2023
188p.; 22 cm.
9788170181477
650gm.
\$ 25.00 / hb

Since my childhood I had always experienced an attraction for Lord Sri Krishna. This attraction grew stronger and stronger with the passing of time, and ultimately it transformed almost into a passion for studying his striking activities, performed (by him) during his life-time, and his divine teachings, as contained in the Mahabharata and the Bhagvad Gitā. While studying Krishna, I formed an impression that he happened to be the greatest politician, the world has ever produced, besides his being the foremost social reformer and religious and philosophical synthesist. In later years, this impression became fully confirmed, and I ultimately decided to embark upon a programme of writing a full-length book on Sri Krishna, with the above facts in view.

The Wonder That Is Hindu Dharma / Ram Chandra Gupta
Delhi: B.R. Publishing Corporation, 2023
240p.; 22 cm.
9788170184263
500gm.
\$ 30.00 / hb

Hindu religion and Hindu thought have governed the Hindu way of life for thousands of years. Dharma is an intrinsic concept of this way of life since it treats life as a whole: it not only guides the social life of the people, but it also serves as the basis of political life in India. If we ignore dharma and its dictates, we ignore all that is moral and righteous.

Genetics of Castes and Tribes of India / Rameshwar Singh
New Delhi: Innovative Imprint, 2023
viii, 232p.; ills. 24 cm.
Bibliography Includes Index.
9788195671359
650gm.
\$ 44.00 / hb

India is a country with enormous social and cultural diversity due to its positioning on the crossroads of many historic and pre-historic human migrations. The hierarchical caste system in the Hindu society dominates the social structure of the Indian populations. The origin of the caste system in India is a matter of debate with many linguists and anthropologists suggesting that it began with the arrival of Indo- European speakers from Central Asia about 3500 years ago. Previous genetic studies based on Indian populations failed to achieve a consensus in this regard. We analysed the Y-chromosome and mitochondrial DNA of three tribal populations of southern India, compared the results with available data from the Indian subcontinent and tried to reconstruct the evolutionary history of Indian caste and tribal populations.

Satavahana Coins from Peddabonkur / Deme Raja Reddy

Delhi: B.R. Publishing Corporation, 2023

189p.; ill. 22 cm.

9789391123567

550gm.

\$ 43.75 / hb

One of the most illustrious dynasties of ancient India, the Satavahanas ruled over Dakshinapatha and central India and they left behind such great works of art as the famous Sanchi and Amaravathi stupas and rock cut temples in western India. During their long rule Satavahana dynasty provided peace, prosperity through foreign trade and they patronized a kind of art which flourished for many centuries. Hence it was no surprise that Satavahana period and Indus valley period are listed as the two times of peace and prosperity in 5000 year history of our country.

<http://www.marymartin.com/web?pid=855154>

Scarcity and Survival: A Study In Culture Ecology of Chowra In Nicobar Archipelago / G.P. Reddy

Delhi: B.R. Publishing Corporation, 2023

xi, 186p.; ill. 22 cm.

Bibliography Includes Index.

9789391123758

500gm.

\$ 25.00 / hb

The Island of Chowra, very small in size (2.8 km), has a population of 1400 people which works out to 500 persons per square mile, the highest both in Andaman and Nicobar groups of islands. Despite these two factors the Chowra Island has an important position in the Nicobar Archipelago. It controls the entire inter-island trade in the Nicobar group of islands. The author examines how with very limited resources and high density of population the Island carries on a lucrative traffic and is thus able to sustain its population which is not small considering the size of the island.

<http://www.marymartin.com/web?pid=855155>

Social Structure and Change Among the Tribals: A Study among the Uralies of Iddukki District In Kerala / Jacob John Kattakayam

Delhi: B.R. Publishing Corporation, 2023

192p.; 22 cm.

Bibliography Includes Index.

9788176462020

450gm.

\$ 26.25 / hb

In this well researched empirical study the author has examined the social structure of the Uralis, a primitive tribe in Idukkui district in kerala. The Uralis, says the author, have a social system that is harmonic; they have few contacts outside of their own society. This is clear from the fact that none of the tribal welfare programmes which the government have launched to change their lot yielded any result. As the style of life of

the Uralis was exclusively their own, they did not feel the indispensability of the government aid. Their social structure has remained till today what it was yesterday.
<http://www.marymartin.com/web?pid=855156>

In The Shadow of Ram: A Translation of Visnu-Hare and Treta Ka Takur Inscriptions of The Gahadavalas at Ayodhya: Issues and Challenges / Namratha Mogaral
New Delhi: Readworthy Press Corporation, 2023
148p.; 22 cm.
9788195669608
450gm.
\$ 20.00 / hb

This book argues that the inscription found in the now extinct Babri masjid should be named as Visnu-hare instead of Visnu-hari since this title does not refer to any god but to the three Gahadavala rajas who had it made. It also challenges that the Sanskrit phrase janma bhumi means Ram's birth place; instead it suggests that in this language jan means folk rather, referring to Ayodhya as land of folk. The Gahadavala temple there had been renovated from an earlier Chola temple at the spot. It was dedicated to goddess Sri Sundara Amman, the Telugu Jaina goddess of beauty & art and devadasi cult. And the so called Ram foot prints found there belonged to the Gahadavala heir Vallabha.

<http://www.marymartin.com/web?pid=855157>

The Dibongiyas: Social and Religious Life of a Priestly Community / Paban Chandra Saikia
Delhi: B.R. Publishing Corporation, 2023
109p.; ill. 22 cm.
Includes Index.
9788170188100
350gm.
\$ 16.25 / hb

The Dibongiyas are one of the territorial groups of the Deuri- Chutiyas of Assam. The Deuri-Chutiyas are ethnically affiliated to the great Tibeto-Mongolian tribes of the State. The other groups of the Deuri- Chutiyas are the Bargonyas, the Tengapaniyas and the Patargonyas. The last group has reportedly become almost extinct. These four groups again constitute the Deuri-Chutiya sub-division of the Chutiyas. Formerly they were a priestly section among the Chutiyas. They conducted magico- religious rituals in the royal temples of the Chutiya Kingdom. Now they are recognised by the Constitution of India as one of the scheduled tribes of Assam. They sparsely inhabit the districts of Lakhimpur, Dibrugarh, Sibsagar and Darrang.

<http://www.marymartin.com/web?pid=855158>

Understanding Harappa: Civilization in the Greater Indus Valley / Sima Kumari
New Delhi: World Heritage Inc, 2023
232p.; ill. 24 cm.
Bibliography Includes Index.
9788195669479
600gm.
\$ 43.75 / hb

Indus civilization, also called Indus valley civilization or Harappan civilization is the earliest known urban culture of the Indian subcontinent. The nuclear dates of the civilization appear to be about 2500-1700 BCE, though the southern sites may have lasted later into the 2nd millennium BCE. The Indus civilization is known to have consisted of two large cities, Harappa and Mohenjo-daro, and more than 100 towns and villages, often of relatively small size. The two cities were each perhaps originally about 1 mile (1.6 km) square in overall dimensions, and their outstanding magnitude suggests political centralization, either in two large states or in a single great empire with alternative capitals, a practice having analogies in Indian history.

Atavika: A Dialogue Between Past and Present (In Felicitation of Dr Baba Mishra) - In 2 vols. / P.K. Dandasena, Gitanjali Routa (ed)

Delhi: B.R. Publishing Corporation, 2023

424p.; ill. 29 cm.

9789391123185

2200gm.

\$ 237.50 / hb

Atavika is the felicitation volume on Dr Baba Mishra, well known historian and archaeologist who retired on May 2019 after more than three decades of Teaching and Research career in the Govt. College Autonomous (Now Kalahandi University) during which, he proved his mettle as a teacher, researcher, research supervisor, organiser, explorer, excavator, interpreter and administrator. His Curriculum Vitae appended with the volume substantiate it. Tel river valley material remains indeed stands for the 'Forest Civilization' of mankind. Atavikas, the forest people who had build civilization and culture of high order on the basin of the Tel and the Indravati during the 4th /3rd cent, BCE to the 5th century CE. Dr Mishra's untiring research on it cannot be ignored.

<http://www.marymartin.com/web?pid=855160>

Ancient Indian Epigraphy / Bhaskar Chandrachud

Delhi: Edukeen Publisher, 2023

v, 264p.; 23 cm.

Bibliography Includes Index.

9789395626460

650gm.

\$ 45.00 / hb

Among the written archaeological sources, epigraphic documents have generally been considered the most reliable as they are often contemporary to the period they talk about and, unlike textual sources, they have not been subjected to revisions and interpolations. The huge corpus of epigraphic literature found from different parts of the Indian subcontinent forms a major source for understanding various aspects of early Indian society, religion, economy and culture, besides dynastic and political history. Epigraphic sources have been used extensively for reading early Indian history. Indian epigraphy is a very specialised area of study in itself and also a principal medium for understanding India's past.

<http://www.marymartin.com/web?pid=854989>

Numismatic History of Himachal Pradesh and the Catalogue of Coins in Himachal State Museum, Shimla and Bhuri Singh Museum, Chamba / Parameshwari Lal Gupta
Delhi: B.R. Publishing Corporation, 2023

ix, 223p.; ills. 24 cm.

Includes Index.

9788170184553

700gm.

\$ 48.75 / hb

Coins, besides being of interest to the collector are of immense cognizance to the historian too because they depict the political, administrative, social, economic, religious and cultural life of the populace of that period. This aspect has been studied by Dr P.L. Gupta with special reference to Himachal Pradesh. A treatise on numismatic history, the book draws evidence from coins in the Himachal State Museum, Shimla and Bhuri Singh Museum, Chamba to recount the history of Himachal Pradesh. The figures and inscriptions on these coins have been painstakingly deciphered to chronologies the period of suzerainty of the various monarchs. Involving a labour of five years, Gupta has compiled a catalogue which is a veritable treasure and simply cannot be passed up by the devoted numismatist.

<http://www.marymartin.com/web?pid=855174>

Numismatic Sources on The Early History of Western Himalayas / O.C. Handa
Delhi: B.R. Publishing Corporation, 2023

xii, 168p.; 22 cm.

Bibliography Includes Index.

9788170181347

500gm.

\$ 25.00 / hb

The Western Himalayas have always remained a theatre for all human activities-social and cultural and the ideal of human aspirations-religious and spiritual from the very dawn of civilization in the Indian sub-continent. It is from this perennial source that all the socio-religious currents have flown and spread to the rest of the sub-continent and beyond eastward where they subsequently developed into multiforms. The cultural strata of the Western Himalayas has, thus, been composed of the sedimentary layers of diverse ethnic influences and socio-religious systems which, in the course of time, got blended and crystallised into a distinct cultural entity.

<http://www.marymartin.com/web?pid=854375>

Naga Polity / M. Horam

Delhi: B.R. Publishing Corporation, 2023

ix, 161p.; 22 cm.

Bibliography Includes Index.

9788170180050

450gm.

\$ 22.50 / hb

Foreign writers have sincerely attempted various studies of the multifaceted subject of Naga people and their territory and have succeeded in gathering enough obvious information. But they have found it well nigh impossible to treat at length any one

aspect of it. This is not surprising as even today, among the Nagas themselves, no reliable information about the history of their race is available. This is so because there is a dearth of relevant records and, also, the legends, traditions, culture, history and literature are preserved orally.

<http://www.marymartin.com/web?pid=854458>

Ancient Indian Numismatics / Bhavesh Semwal, Bhavna Singh

New Delhi: Venus Publications, 2023

vi, 236p.; 23 cm.

Bibliography Includes Index.

9789390412747

650gm.

\$ 40.00 / hb

Coins tell a lot about the ruler who issued them. They speak of events that took place; they tell us the name of the ruler; some coins even tell us which year he ruled in. The designs are aesthetic. Coin in India depict the king, gods, goddesses, and other motifs while medieval ones issued by kings in North India bear inscriptions in Arabic or Persian and the ones in South India depict beautiful motifs coupled with legends. During the British rule in India, currency slowly, but steadily shifted from precious metals to token currency. Coins of British India were minted in brass, bronze, aluminium, stainless steel, and other metals which were not deemed precious.

<http://www.marymartin.com/web?pid=854968>

Hindu Civilizations, Customs and Traditions / Dalbir Bhanot, Udit Bahri

Delhi: Peridot Literary Books, 2023

222p.; 23 cm.

Bibliography Includes Index.

9789390393947

700gm.

\$ 45.00 / hb

The word Hinduism derives from a Persian term denoting the inhabitants of the land beyond the Indus, a river in present-day Pakistan. By the early nineteenth century the term had entered popular English usage to describe the predominant religious traditions of South Asia, and it is now used by Hindus themselves. Hindu beliefs and practices are enormously diverse, varying over time and among individuals, communities, and regional areas. Unlike Buddhism, Jainism, or Sikhism, Hinduism has no historical founder. Its authority rests instead upon a large body of sacred texts that provide Hindus with rules governing rituals, worship, pilgrimage, and daily activities, among many other things.

Art

Buddhist Art and Culture Symbols and Significance / Ujjwal Kumar

New Delhi: World Heritage Inc., 2023

232p.; ill. 24 cm.

Bibliography Includes Index.

9788195669424

600gm.

\$ 43.75 / hb

Buddhist art & culture is a huge topic with an enormous range of material available for discussion. Buddhist art refers to the rich and diverse representations of religious images, sculpture, dance, visual mythology, and symbols deriving from the various Buddhist communities found around the world. Buddhist culture is exemplified through Buddhist art, Buddhist architecture, Buddhist music and Buddhist cuisine. As Buddhism expanded from the Indian subcontinent it adopted artistic and cultural elements of host countries in other parts of Asia Buddhist art originated in the Indian subcontinent in the centuries following the life of the historical Gautama Buddha in the 6th to 5th century BCE, before evolving through its contact with other cultures and its diffusion through the rest of Asia and the world. From that time, Buddhist art diversified and evolved as it adapted to the new countries where the faith was expanding.

Bibliography Includes Index.

9788195669493

600gm.

\$ 43.75 / hb

Art is a diverse range of human activities in creating visual, auditory or performing artifacts (artworks), expressing the author's imaginative, conceptual ideas, or technical skill, intended to be appreciated for their beauty or emotional power. Other activities related to the production of works of art include the criticism of art, the study of the history of art, and the aesthetic dissemination of art. The three classical branches of art are painting, sculpture and architecture. Music, theatre, film, dance, and other performing arts, as well as literature and other media such as interactive media, are included in a broader definition of the arts.

Art and Architecture of Jharkhand / C.P. Sinha

Delhi: B.R. Publishing Corporation, 2023

xxii, 278p.; ill. 28 cm.

Includes Bibliography.

9789391123741

1300gm.

\$ 9.75 / hb

The book Art and Architecture of Jharkhand is the first attempt of its kind unraveling the vast sculptural and architectural store house lying hitherto almost unnoticed in the sprawling region of Jharkhand. Efforts have been made in this work to focus the regional character of the sculptures. Critical assessment of art forms have also been given. The study also provides an integrated account of sculptural material and also of temples of the state in a single volume in a coherent manner. The artists of Jharkhand did not blandly imitate proto-type of their neighbouring state rather they added new indigenous elements. They succeeded in expressing their own ideas and taste through the execution of details. They retained their individuality in terms of indigenous culture, religious beliefs and geographical traits. Sculptures belonging to Jharkhand areas other than the black stone images do not belong to the Pala school of sculpture. A distinct local style parallel to the Pala School can be seen from the areas of Jharkhand.

9789390393886

650gm.

\$ 42.50 / hb

Indian architecture has a long rich history, dating back thousands of years. It encompasses the building traditions of the Indian subcontinent-which includes what are now India, Pakistan, and Bangladesh. The earliest Indian buildings were made of wood and then brick. Few examples of such ancient structures, especially those of wood, have survived the severity of the Indian climate. By about the 6th century BC, stone architecture was being created on the subcontinent. Indian architects soon became highly skilled in the carving and construction of stone buildings. By the 7th century AD, the use of stone had become popular for important buildings of great size.

\$ 45.00 / hb

The Medieval period is considered as an age of great cultural synthesis in India. During this period a new phase of cultural development was initiated. The Turks and Mughals introduced fresh ideas and helped in giving rise to new features in the areas of religion, philosophy and ideas, Language and Literature, Styles of architecture and use of building material, Painting and Fine arts, Music and performing arts. India already had a very rich cultural tradition in all spheres. The synthesis between different cultures gave birth to new philosophical and religious traditions, ideas, forms and styles in almost all spheres of culture. In this lesson you would be introduced to these new cultural developments in some important spheres. The book focuses on every cultural aspects of medieval India.

Biography / Memoirs

Ishwar Chand Vidyasagar: Life and Thoughts / Shivendra Pathak

New Delhi: Innovative Imprint., 2023

viii, 208p.; 23 cm.

Bibliography Includes Index.

9788195669202

600gm.

\$ 44.00 / hb

Ishwar Chandra Vidyasagar was a legendary educationist, a Sanskrit scholar and a social reformer who not only changed the Bengali alphabet and type but also challenged Hindu orthodoxy by playing a pivotal role in passing the Widow Remarriage Act. He also fought for women's education and vigorously challenged the barbaric practice of child marriage. Standing tall against the conservative power centres of Hindu society, Vidyasagar was a man who was way ahead of his times. In light of the desecration of his statue, it is time to remind ourselves about this visionary of modern Indian history. Ishwar Chandra Vidyasagar's pioneering work in Bengali prose certainly deserves the very best of appreciation. He mostly devoted his time writing reformist literature and textbooks.

The Dhammapada, which means 'The Path of Virtue' or 'The Path of Truth' is the most valuable book for understanding Buddhism as it gives the essence of the Teachings of the Buddha. Hence, it is the most popular book amongst the Buddhists alike. The Pali Dhammapada was in fact the first Buddhist text ever published in Europe. It was published with a Latin translation by a Danish professor, Victor Fausboll, in 1855. by now, it has become a world classic, and has been translated into almost all the major languages of the world.

'Vajirasara' is an exceptional work in the Pali language, which describes the Buddha's words in a magical way. Buddhist moral principles, points of religious doctrines, etymology, poetics, cosmology, riddles, etc. are described in this Pali text in a beautiful manner. This Pali manuscript was edited by Prof. C. Upendra Rao, an eminent scholar in the field of Pali, Sanskrit and Indic studies. He transliterated the Pali text into Devanagari and Telugu scripts and translated it into English with explanations.

The highest of all possible human goals is the attainment of complete enlightenment, an ultimate state of peace in which all obstacles obscuring the mind have been removed and all good qualities such as wisdom, compassion, and skillful means have been fully developed. However, we cannot reach this ultimate goal merely by waiting for it; we need to use the appropriate methods to take us there. What are the methods for attaining the peace of full enlightenment? They are the paths of Sutra and Secret Mantra; there is no third method. Of these two, the techniques revealed in Secret Mantra are superior to those revealed in the Sutras.

Buddhism became the first world religion by proving its ability to cross ethnic boundaries and speak importantly to multiple civilizations. It tells us that our destiny and final cause is a condition, nirvana that exceeds all telling but is completely fulfilling. Even though Ancient Bihar is not the birthplace of Buddha, it is closely associated with the rise and development of Buddhism. It was the training ground of Gautama Buddha after he became a wondering ascetic, and it was here in Bodh Gaya that he attained supreme spiritual knowledge. His missionary activity was largely carried in Bihar. Rajgriha and Vaisali were his favourite places of residence or monsoon resorts.

The Jataka, one of the books of Khuddaka Nikaya of the Pali Canon (Tripitaka), has in all 547 stories of the past lives of Gautama the Buddha. The Jataka stories, being full of wit and humour, worldly wisdom, moral lessons, and pious legends of semi-historical nature, were very helpful in popularising the Dhamma amongst the masses. As such, they were not only handed down orally from generation to generation but were also carved or painted on the walls of the Buddhist monuments. As in India, so also in other Buddhist countries, the Jataka stories decorate the temples.

Many think of Buddhism as a tolerant religion, one that recognizes the value of all religious traditions. The main difference between Brahmanism and Buddhism is the notion of the belief in there being a soul (Brahamism/Hinduism) and no soul or non-self (Buddhism). Buddhism and Hinduism agree on karma, dharma, moksha and reincarnation. They are different in that Buddhism rejects the priests of Hinduism, the formal rituals, and the caste system. Buddha urged people to seek enlightenment through meditation.

Human geography has been energized and replenished in a more decentered manner by multiple authors asking very different questions within the same subdisciplinary space. Some, like Alexander Von Humboldt, are seen as forbearers, but others, such as Friedrich Ratzel and Ellsworth Huntington are remembered more for how subsequent geographers disowned their ideas. Somewhat an exception to this is Paul Vidal de la Blache, who took up the chair of geography at the Sorbonne in 1898 and whose students became professors of geography at most of France's (then) 16 other universities. In this instance one could argue that a single leading figure established the terrain and direction of a national geographical tradition - at least for several subsequent generations.

The basic reason for the British to come to India was for trading purposes. In that period, Britain faced the Industrial Revolution. For that reason, they needed so many raw materials for their factories, which mainly came from India as well as they also needed a proper market for selling their finished goods. India can give them these two, a huge source of raw materials and a perfect market for selling those finished products. Therefore, the foremost economic impact of British rule in India was that the country became the centre of British trade. This further impacted the overall economic structure of the country.

Recent research has used the work of Douglas North as the foundation on which the case of institutions as ultimate driver of development could be built. North describes institutions as 'the humanly devised constraints that shape human interaction'. These are powerful metaphors for us who are accustomed to think in terms of 'constrained maximization' as the rule guiding personal actions. This book explores complex issues such as institutions and geography, new Kaldor facts, institutions and endowments, institutions and culture, governance and such.

Geography and environment are the study of the human-dwelling world along with the humans living on the Earth in several places; their environment and the various landscapes surrounding them. Environmental Geography is the discipline which goes on to explain the effects of humans on their environment as well as the impact of the environment on humans. Basically, one can study the interrelationship & interdependence between the living beings and their surrounding environment. Environmental Geography is a mixture of both the disciplines, that is, Physical and Human Geography. It is good to use the resources coming from the environment but over-exploitation of anything leads to doom. Being the protective layer in the Stratosphere, the Ozone layer protects the living beings on Earth from the harmful UV (Ultraviolet) rays of the Sun.

Indigenous is defined as "originating or occurring naturally in a particular place." Indigenous can be used to define species of plants and animals that originated in a particular place. It is also used more broadly to refer to native people, those who were here first. Indigenous methodologies tend to approach cultural protocols, values and

behaviors as an integral part of methodology. Over the past few decades, scholars involved in research on, with and about indigenous peoples have been discussing a great variety of issues relating to indigenous research, which may be viewed from an indigenous perspective, or from an outside perspective, or from the perspective of a collaboration between a particular indigenous people and outside experts.

Yoga is an ancient and complex practice, rooted in Indian philosophy. It began as a spiritual practice but has become popular as a way of promoting physical and mental wellbeing. Although classical yoga also includes other elements, yoga as practiced in the United States typically emphasizes physical postures (asanas), breathing techniques (pranayama), and meditation (dyana). There are many different yoga styles, ranging from gentle practices to physically demanding ones.

The Yoga Sutras are a practical textbook to guide your spiritual journey of remembering who you really are. Here are some important takeaways that every Yogi should know. The true meaning of Yoga is the union of body, mind, soul, and spirit. According to Yoga, we suffer because of the illusion of separation between our individual consciousness

from Universal Consciousness or Brahman. The Yoga Sutras are a practical to guide your spiritual journey of remembering that union. The Yoga Sutras were composed by a man named Patanjali. There is not much known about him, except that he was presumably Indian and lived somewhere between the second and fourth century BC.

9789395626583

700gm.

\$ 48.75 / hb

The word Ashtanga is comprised of two Sanskrit words, "Ashta" and "Anga." "Ashta" refers to the number eight, while "Anga" means limb or body part. Therefore, Ashtanga is the union of the eight limbs of yoga, into one complete, holistic system. These eight-limbs of yoga represent the various branches of the philosophy of the yoga sutras that form the foundation in the Ashtanga Yoga School. The Ashtanga philosophy is to integrate all of the eight limbs of yoga, which include: Yama (moral codes), Niyama (self-discipline), Asana (posture), Pranayama (breath control), Pratyahara (sense withdrawal), Dharana (concentration), Dhyana (meditation), and Samadhi (oneness with the self).

Uttar Pradesh is a state in northern India. With roughly 200 million inhabitants, it is the most populous state in India as well as the most populous country subdivision in the world. It was created on 1 April 1937 as the United Provinces of Agra and Oudh during British rule, and was renamed Uttar Pradesh in 1950. The state is divided into 18 divisions and 75 districts with the capital being Lucknow. The main ethnic group is the Hindavi people, forming the demographic plurality. On 9 November 2000, a new state, Uttarakhand, was carved out from the state's Himalayan hill region. The two major rivers of the state, the Ganga and Yamuna, join at Allahabad (Prayagraj) and then flow as the Ganga further east. Hindi is the most widely spoken language and is also the official language of the state, along with Urdu. It covers 243,290 square kilometres (93,933 sq mi), equal to 7.34% of the total area of India, and is the fourth-largest Indian state by area.

Civil Disobedience Movement In The Punjab 1930-1934 / D.R. Grover
Delhi: B.R. Publishing Corporation, 2023
338p.; 22 cm.
Bibliography Includes Index.
9788170184447
650gm.
\$ 43.75 / hb

Mahatma Gandhi started the Civil Disobedience Movement on 11 April 1930 by breaking the salt laws at Dandi. However, the Salt Satyagraha could not be as successful in other states as it was in Gujarat due to a number of factors. The Sikhs were at first indifferent to the movement but later with the intensification of the movement, they started boycotting foreign cloth. Picketing of temples and liquor shops was also started. In 1931, the movement was discontinued after the Gandhi-Irwin Pact. Later in the year, Gandhiji went to England to attend the Second Round Table Conference. Due to the failure of the Conference, the Civil Disobedience Movement was resumed but was crushed by the Government which was prepared for the step. In the Punjab, only the boycott of foreign cloth could achieve a measure of success. The author, in this book, details the factors which gave rise to the Civil Disobedience Movement, its progress and achievements in the Punjab. He also writes about the treatment meted out by the Government to the political prisoners in the Punjab.

Formation of Haryana / Gulshan Rai

Delhi: B.R. Publishing Corporation, 2023

223p.; 22 cm.

Bibliography Includes Index.

9788170184126

500gm.

\$ 28.75 / hb

After Independence, it was felt that our political units lacked linguistic and cultural synthesis: they ought to be restructured mainly on the basis of language. In northern India, the Akali Dal advocated the cause for a separate Punjabi speaking State on the grounds that Punjabis have a distinctive culture and a common mother tongue. This was the beginning of the genesis of a State called Haryana. Going into the history of Haryana, Gulshan Rai has delineated details of the origin of the word 'Haryana', its land and its people. He has given a well-rounded account of the various Committees which were appointed to study the justification for the formation of Haryana and the heterogeneous factors that led to the development of the State.

"Freedom Movement in Sambalpur" is the first comprehensive study of a region which played a distinct role in the national perspective. In fact, Sambalpur is the first place where the Non-cooperation Movement began even before it was found in Bengal-the very citadel of National Movement. Further, this is the place which kept up the spirit of Indian war of Independence of 1857 as late as 1864. It was Surendra Sai, the undaunted freedom fighter of the region, who organised the tribal people and fought against the British relentlessly in a period when Nationalism was not even heard. He was a pioneer in leading the nationalist movement of Sambalpur though the term. "nationalism" came into vogue afterwards.

Mahabodhi Temple the summum sanctum sanctorum of the Buddhists in the world is a singular example of its kind which is not under the control of the Buddhists completely. This is the oldest and first International Shrine and Pilgrimage Centre in the world. King Ashoka visited to this Shrine in around BCE 260. He had laid down the foundation of present Mahabodhi Temple at the adjacent to the Bodhi Tree and also had encircled the Bodhi Tree with the fencing of carving stones. By the end of 12th Century A.D. it had commenced the declining of Buddhism in India. Consequently, the Mahabodhi Temple was left into deserted condition and unnoticed.

The Punjab, also spelled and romanised as Panjab, is a geopolitical, cultural and historical region in South Asia, specifically in the northern part of the Indian subcontinent, comprising areas of eastern Pakistan and northern India. The boundaries of the region are ill-defined and focus on historical accounts. The geographical definition of the term "Punjab" has changed over time: in the 16th century Mughal

Empire it referred to a relatively smaller area lying between the Indus and the Sutlej rivers. In 1947, the Punjab Province of British India was divided along religious lines into West Punjab and East Punjab. The western part was assimilated into Pakistan while the east became part of India.

The collapse of the Mauryan rule in 187 BCE paved the way for the emergence of several powers in the Indian subcontinent. The period from the decline of the Mauryas to the rise of the Guptas (2nd century BCE to 3rd century CE) is known in Indian history as the post - Mauryan period. The Indo-Greek Kingdom, or Graeco-Indian Kingdom, also known historically as the Yavana Kingdom, was a Hellenistic-era Greek kingdom covering various parts of Afghanistan, the northwest regions of the Indian subcontinent, (all of present Pakistan), and a small part of Iran; from 180 B.C.E. to around 10 C.E. The kingdom began when the Greco-Bactrian king Demetrius invaded India in 180 B.C.E., ultimately creating an entity which seceded from the powerful Greco-Bactrian Kingdom centered in Bactria.

During the Mughal period, the cultural development (of India), amalgamated with the Turko-Iranian culture brought to the country by the Mughals. The Mughals built magnificent forts, palaces, gates, public buildings, mosques, baohs (water tank or well), etc. Besides, they also constructed formal gardens with running water. Use of running water even in the palaces and in the pleasure resorts was a special feature of the Mughals. Babur was very fond of gardens and hence he constructed a few in the neighborhood of Agra and Lahore.

The book presents an enlightening account of Chalukya Cholas, focussing the transitional phase between the rule of Eastern Chalukyas and the Kakatyas in the Andhra History. The period of about two centuries of medieval Andhra has been dealt with multi-dimensionally: political, social, economical, architectural and religious, including the decline of Jainism and re-emergence of Saivism and Vaishnavism with their further divisions. In this backdrop, the secular outlook of the rulers of that era has also crystallized.

Literary and Archaeological records are the two main categories that give evidences of Ancient Indian History. The archaeological source includes epigraphic, numismatic, and other architectural remains. The archaeological explorations and excavations have opened the great landscapes of new information. The ancient Indian literature is mostly religious in nature. The effort of history writing was shown by a large number of inscriptions, coins, and local chronicles. The principles of history are preserved in the Puranas and Epics.

Hindu-Muslim relations have always been an issue of debate in the history of India. Even as long ago as the era of the Moghuls, there were dissensions between the two religious groups. When the British came to India, they took advantage of the situation and according to their policy of 'Divide and Rule' tried to create differences between the Hindus and the Muslims with the help of the Muslim aristocracy which belonged, by and large, to the foreign stock. However, despite incidents like the partition of Bengal in 1905 and the Bihar riots of 1917, there were communal bonds between the two groups. The efforts of Mahatma Gandhi and others in securing the release of pan-Islamic leaders like the Ali Brothers, Azad and Hasrat Mohani further increased the amity between the two groups. It was after 1921 that the unity between the two groups started to appear as if it had been superficial all along. Communal riots became a recurrent feature. It seemed as if the British had got what they wanted at last. The book consists of a detailed history of Hindu-Muslim relations from 1913 to 1925, a period when these two groups were undergoing drastic transformations in their reaction towards each other.

After the Battle of Buxar (1764), the Company appointed Residents in Indian states. Through the Residents, the Company officials began interfering in the internal affairs of Indian states. Sometimes the Company forced the states into a "subsidiary alliance". According to the terms of this alliance, Indian rulers were not allowed to have their independent armed forces. They will be protected by the Company but had to pay for the "subsidiary forces" that the Company maintain for the purpose of this protection. If the Indian rulers failed to make the payment, then part of their territory was taken away as a penalty.

The prehistoric age in India dates back to the start of the Stone age or the Paleolithic age and then ends with the Iron age just before the Indus valley civilization. The prehistoric period is roughly dated to be from 200000 BC to around 3500-2500BC when the shaping of the first civilization took place. The Paleolithic Age is also known as the Old stone age. It dates from 500,00-10,000BCE. During this period, Indians belonged to the 'Negrito' race. The Lower Paleolithic age was the Ice Age which mainly consisted of hunters and gatherers. Crudely carved out stones were used by people for hunting. The characteristics of the tools used by people in the paleolithic age were very rough and with the end of this period, human beings started making and using fire. The Middle Paleolithic Age was part of the old stone age where human beings started making pointed and sharp tools such as flakes, blades, and pointers. They used specialized tools

for killing small animals and also for tearing the flesh from dead, hunted animals. The case was the last phase of the Ice Age when the climate became comparatively warm.

The economy is inextricably linked with our daily lives. In Ancient India also there was no exception. This economic trend has changed at different times Like the reshuffle of power, the change in the course of economy was also noticeable The wheel of the economy was sometimes upward and sometimes downward Sometimes the wheel of the economy was the cause of power shifting. Because the economically powerful rulers wanted to seize power by invading his neighboring states That's why the rulers wanted to run the economy of his state smoothly. One of the policy makers of the Ancient India like Maurya, Gupta, or whatever the period was depended on how active the economy of that period was.

It was G.W. Briggs who, in 1938, first wrote about Gorakhnath and the Kanphata Yogis. The present volume should make an important addition to the study of the Nathas. At one time, the Natha Cult was an 'obscure religious cult. Now it is considered to be a significant phenomenon in the socio - cultural scenario of India. Though divergent views have been expressed by different scholars about the origin and propagation of this cult, the author of this book, Dr. P.K. Bandyopadhyay takes the view that it was the mingling of the Saivite tradition (Tantra) and the local cult of Dharmaraj in Bengal (Mahanad) during the days of Pala-Sena, that led to the emergence of the Natha Cult. 'Nada Sadhana' or search for the 'Anahata' sound is the essence of the philosophy of the Natha Yogis.

The Vedic literature consists of four Vedas, namely: Rig Veda, Sama Veda, Yajur Veda, and Atharva Veda. The mantra text of each of the Vedas is called Samhita. They are the prose texts that explain the hymns in the Vedas and are also the classification of Sanskrit texts that are embedded within each Veda, incorporating myths and legends to explain and instruct Brahmins on the performance of Vedic rituals. In addition to explaining the symbolism and meaning of the Samhitas, Brahmana literature also expounds scientific knowledge of the Vedic Period, including observational astronomy and, particularly in relation to altar construction, geometry. Divergent in nature, some Brahmanas also contain mystical and philosophical material that constitutes Aranyakas and Upanishads.

In Tantra Yoga, the subtle bodies of energy and spirit are developed to create a bridge from the physical to the Devine. The development of energy is focused on the purification and cultivation of prana and the activation of kundalini. The physical body is used to activate energy through the practices of asana, pranayama, mudra, and shatkarma. Thus, the Tantra yogis developed the yoga postures (asana) and breathing exercises (pranayama) that are most commonly used today in Hatha Yoga. Mudras include hand gestures and an intense fusion of asana, pranayama, and bandha.

Shatkarma (often referred to as kriya) are esoteric exercises and techniques to purify the body and cleanse the energy pathways. The devotional practices of mantra, yantra, and puja are used to develop the spiritual body.

Childhood is a time in life that should be filled with joy and imagination, and free of fear and any serious responsibility. However, for many people, this not their reality, as abuse and trauma have warped their experience of it. Canadian Red Cross defines child abuse as “any form of physical, emotional and/or sexual mistreatment or lack of care that causes injury or emotional damage to a child or youth ...” Emotional abuse, exposure to family violence, physical abuse and sexual abuse are all forms of child abuse. According to the Convention on the Rights of the Child, a child is any person below the age of 18. As such, just like any other person, s/he has rights.

Human rights are rights inherent to all human beings, whatever our nationality, place of residence, sex, national or ethnic origin, colour, religion, language, or any other status. We are all equally entitled to our human rights without discrimination. These rights are all interrelated, interdependent and indivisible. Since the 1960s and the origins of the modern human rights movement, human rights organizations have produced their own research. In-depth and well-documented reports, replete with testimonial evidence and

analysis of government policy and practice, are the stock-in-trade product of human rights organizations.

Many organizations around the world dedicate their efforts to protecting human rights and ending human rights abuses. Public support and condemnation of abuses is important to their success; as human rights organizations are most effective when their calls for reform are backed by strong public advocacy. Non Governmental Organization is one of the examples of such groups. In every part of the globe, there are Non-Governmental Organizations' (NGOs) working every hour of the day to document the injustices heaped upon women, children and the under-class, standing beneath the bottom rung of the society.

The word 'Tribe' denotes a group of people living in primitive and ruthless conditions. These tribes are a social group living in a fixed territory having no such specialization of functions and the people living in these social groups are known as tribes or tribal people. Tribes also have several sub groups and collectively they are known as 'Tribal Society'. Tribes are the inhabitants of forests since pre history and even in this modern world this trend is followed by many people. Tribes constitute around 8.6 percent of the total Indian population, and of the total tribal population around 80 percent are found in Central India.

The rights of women are an inalienable, integral, and indivisible part of universal human rights. At the beginning of the twenty-first century, women perform an estimated 60 percent of the world's total work but receive only 10 percent of the world's income and own a mere 1 percent of the world's land. They constitute nearly 60 percent of world's poor. Recent attempts at structural adjustments and economic liberalization have led to further marginalization of women and an increasing feminization of poverty, particularly in the developing countries. India is no exception to these trends. Gender equality is at the very heart of human rights and United Nations values.

Library classification is a work consists of two steps. Firstly, the "about ness" of the material is ascertained. Next, a call number (essentially a book's address) based on the classification system in use at the particular library will be assigned to the work using the notation of the system. It is important to note that unlike subject heading or thesauri where multiple terms can be assigned to the same work, in library classification systems, each work can only be placed in one class.

The 5 Laws of Library Science is a theory proposed by S. R. Ranganathan in 1931, detailing the principles of operating a library system. Five laws of library science are called the set of norms, percepts, and guides to good practice in librarianship. Many librarians worldwide accept them as the foundations of their philosophy. Dr. S.R. Ranganathan conceived the Five Laws of Library Science in 1924. The statements embodying these laws were formulated in 1928. These laws were first published in Ranganathan's classic book entitled Five Laws of Library Science in 1931. The Five Laws of Library Science are the most influential concept in the field of library science.

540gm.

\$ 36.25 / hb

This book entitled "Essentials of Pall Language and Literature" is unique in several aspects. It explains the role of Pall in the history and culture of India. Pali is a significant language that contains the unparalleled words of the Bhagavan Buddha. Being the ancient language of India, Pall preserves Indian history and several other aspects of Indian culture. Therefore forgetting this language proves a significant loss. Pall is our ancient language which shows a dynamic role in the Linguistics of the entire Jambudvipa. Pali language and literature influence Indian languages and literature. Pali has extensive literature, and this book attempts to elaborate on all those aspects. Besides, this book discusses the significant relationship between the 'Chandas' and Pall, including its linguistic relation with the Prakrit and Sanskrit languages.

Buddhist Impact on Ravindranath Tagore's Creations / Dipankar Salui

Delhi: Buddhist World Press, 2023

xxi, 245p.; 22 cm.

Includes Bibliography.

550gm.

\$ 28.75 / hb

Buddhist Impact on Rabindranath Tagore Creations is one of the extremely important and very much relevant fields of studies in present academic world. Rabindranath Tagore, a great poet and philosopher, cherished a genuine love and admiration for Gautama the Buddha as the greatest man ever born on this earth. The greatness of the Buddha and that of Buddhist culture are equally manifested in his life and works. His superb songs and poems in praise of the Master, his dramas and inimitable prose writings glorifying the eternal virtues of Buddhism remain unparalleled in modern Indian literature and as a matter of fact, in any literature of the world. Besides, his keen and deep interest for the revival of Buddhist culture in our national life bears ample testimony to his love of Buddhism. Therefore, Tagore can rightly be called a modern torch-bearer of Buddhism culture.

New Delhi: Writers World, 2023

232p.; ill. 23 cm.

Bibliography Includes Index.

9788195669370

650gm.

\$ 44.00 / hb

Sanskrit drama is part of Sanskrit literature, the classical literature of India, which flourished from about 1500 BC to about AD 1100. The earliest extant critical work on Sanskrit drama is attributed to Bharata, the legendary formulator of the dramatic art in India. That work, the Na ya-sastra (c.2d cent. AD) is relatively late but could be a reworking of a much earlier version. References to the drama and to dramatic criticism in the work of the grammarian Panini constitute a more certain indication of an early date for Sanskrit drama.

Ruth Praver Jhabvala: A Study in Empathy and Exile / Aruna Chakravarti

Delhi: B.R. Publishing Corporation, 2023

xii, 285p.; 22cm.

Bibliography Includes Index.

9788170189619

600gm.

\$ 36.25 / hb

This study attempts to place in a critical perspective Ruth Praver Jhabvala's exploration of cross-generation, cross-familial and cross-cultural assimilations in India as manifested in her fiction written between 1955 and 1975. An examination of her work of these two decades reveals certain shifts in the nature and scope of this exploration. These shifts are seen as linked with the social and industrial development of India as well as with her self-confessed changes of response to India during the twenty-three years of her stay. At the same time her observations are identified as part of a literary tradition with which she has close connections-that of the fiction written by European expatriates in India.

This book deals with the most important and the popular subject about the prized Cultural Heritage of Gujarat, mainly its folk art forms, with special reference to the Garaba-Rasa. It examines Garaba-Rasa from the prehistoric to the present and from cultural, literary and archaeological points of view. But it is not merely an academic study; it includes the musical and performative aspects of the genre. The approach undertaken here is both multi-disciplinary and interdisciplinary. The study is the result of extensive field work and archival research.

Music is a universal language. Musical and cultural sustainability are inseparable from environmental ecosystem sustainability. That's been one of this blog's themes from the outset. Sustainability and innovation are essential elements in the live-music business today. Every culture in the world has its own form of music that is enjoyed by all ages on every continent. Although each culture is different, music unifies all races and has been used throughout history for different occasions and for enjoyment purposes.

Drama had its earliest beginnings in the corporate life of the village. The villagers had to undertake the communal task of ploughing, reaping and harvesting and clearing the wasteland. This pattern of work and the survival of the community were determined by cycles of cultivation and change of seasons. And this in turn expressed itself in rituals that fed into mythologies. The rituals were performed as types of worship that both ensured the continuity of the cycles and acknowledged its significance. As community activities these rituals did not require texts, so that many folk plays survived as mimetic actions alone.

Drama is the specific mode of fiction represented in performance: a play, opera, mime, ballet, etc., performed in a theatre, or on radio or television. Considered as a genre of poetry in general, the dramatic mode has been contrasted with the epic and the lyrical modes ever since Aristotle's *Poetics* (c. 335 BC)—the earliest work of dramatic theory. The enactment of drama in theatre, performed by actors on a stage before an audience, presupposes collaborative modes of production and a collective form of reception. The structure of dramatic texts, unlike other forms of literature, is directly influenced by this collaborative production and collective reception.

Classical music has ancient roots, and it primarily developed due to the reverence for arts, for both spiritual (*moksha*) and entertainment (*kama*) purposes in Hinduism. The Buddha discouraged music aimed at entertainment, but encouraged chanting of sacred hymns. The various canonical *Tipitaka* texts of Buddhism, for example, state *Dasha shila* or ten precepts for those following the Buddhist spiritual path. Among these is the precept recommending "abstain from dancing, singing, music and worldly spectacles". Buddhism does not forbid music or dance to a Buddhist layperson, but its emphasis has been on chants, not on musical *rāga*. *Raga*, along with performance arts such as dance and music, has been historically integral to Hinduism, with some Hindus believing that music is itself a spiritual pursuit and a means to *moksha* (liberation). *Ragas*, in the Hindu tradition, are believed to have a natural existence. Artists don't invent them, they only discover them. Music appeals to human beings, according to Hinduism, because they are hidden harmonies of the ultimate creation.

Carnatic music is unique in that the written composition of the music embodies both the composer's creation and the musician's interpretation. This means that when a piece of Carnatic music is performed, the audience expects not only that the music will be played expertly and with precision, but also that the musician will understand the composer's intent and will interpret the meaning of the music while incorporating their own style. In this way, each performance is a new experience to the audience. This practice ensures that each performance is emotionally charged with layers of expression. Each beginning musician starts their practice by mastering the geethams and swarajatis which were created with the intent of providing a basic understanding of the art form and offers the beginner a source of a learning exercise.

The Indic philosophy celebrates Naad Brahm and Yoga. Both are seen as the highest level of human consciousness aimed at being oneness with the Supreme being and harmony with the natural elements. Naad Yoga also called laya yoga was one of the ancient methods and ancient texts of yoga with several references to both. The anhatnaad and ahat naad when practiced did have the yogic benefits of experiencing a sense of wellness of mind, body and soul. Both yoga and naad are deep rooted in the ancient knowledge traditions of India and the sadhaka's of both streams experience divine bliss. Adi naad is symbolized by Om. Both Ved Vyas and Patanjali stress on the physical exercises of yoga and the spiritual attainment of Samadhi state or the ultimate union with the Supreme.

The Musical sound is any tone with characteristics such as controlled pitch and timbre. From the tinkle of a bell to the slam of a door, any sound is a potential ingredient for the kinds of sound organization called music. Music arises from human behaviour, and the study of human behaviour is part of biology. Some believe that folk music originated as art music that was changed and probably debased by oral transmission, while reflecting the character of the society that produced it. In many societies, especially preliterate ones, the cultural transmission of folk music requires learning by ear, although notation has evolved in some cultures. Different cultures may have different notions concerning a division between "folk" music on the one hand and of "art" and "court" music on the other.

Music has been termed as a very strong source of inspiration behind inculcating human values in an individual. It not only softens the hardness but also instils the attributes of tolerance, love, and a sense of brotherhood among human beings. The music industry involves the production, distribution, and sale of music in a variety of forms as well as the promotion of live musical performance. The music industry consists of people and companies that help music-makers - ie frontline artists, backing vocalists, session musicians, composers, songwriters, lyricists, beat-makers and studio producers - to make money out of their music making. It's as simple as that.

Dance was created by the gods, according to Indian mythology. Because it integrates song, drama, shape, and line, dancing is one of the most renowned Hindu arts. Indian dance emphasizes gestures, body positions, and head movements. Dance is a genre of performance art that consists of improvisational or pre-planned movement routines. This trend has both aesthetic and symbolic significance. 9,000-year-old murals at the Rock Shelters of Bhimbetka in India and Egyptian tomb paintings portraying dancing figures dated around 3300 BC provide archaeological evidence for early dance.

Music is the art and science of combining vocal or instrumental sounds or tones in varying melody, harmony, rhythm and timbre, especially so as to form structurally complete and emotionally expressive compositions. To appreciate music the listener need not know the definition of music. The knowledge of science is desirable in that it helps him or her to substantiate his or her conclusions. However, it is not a must, because music and human psyche are so inter-related that the mind involuntarily responds to music like a plant to sunlight.

Music has always been an important part of Indian life. The range of musical phenomenon in India extends from simple melodies to what is one of the most well-developed "systems" of classical music in the world. There are references to various string and wind instruments, as well as several kinds of drums and cymbals, in the Vedas. Some date the advent of the system of classical Indian music to Amir Khusro. Muslim rulers and noblemen freely extended their patronage to music. In the courts of the Mughal emperors, music is said to have flourished, and the Tansen was one of the jewels of Akbar's court.

There are reserved constituencies in both Parliamentary and State Assembly elections. Scheduled Castes (usually abbreviated as SC), and Scheduled Tribes (usually abbreviated as ST) are castes and tribes included in the schedules published by the government to indicate these castes' and tribes' backward status. Until the 1970s, Dalit political aspirations were sought to be met through the Republican Party of India (RPI), which was derived from Ambedkar's Scheduled Caste Federation, and through scheduled caste leaders co-opted in the political mainstream - principally, the Congress party. While the RPI was rendered largely ineffective by internal strife, mainstream political parties did little more for Dalits than exalt them as vote banks.

Ambedkar Dalits and Buddhism / Nareshwar Singh

New Delhi: Innovative Imprint, 2023

232p.; 23 cm.

Bibliography Includes Index.

9788195669219

600gm.

\$ 40.00 / hb

The caste system divides people into groups; at the bottom are the Dalit. Historically, they have been denied education, consigned to menial tasks such as scavenging, and deprived of self-determination. The Indian constitution safeguards what it calls "scheduled castes" through affirmative action policies. In theory, all citizens are equal, but in practice violence is on the rise. Ambedkar combined fearless and trenchant criticism of religion with a deep sympathy and understanding of it. When he diagnosed Hinduism as a religion of inequality because it sanctified caste or when he converted to Buddhism with his followers, Ambedkar was saying that religion can be and must be criticized.

450gm.
\$ 27.50 / hb

In the central highland of Assam there is a series of hills which has for centuries been known as the Mikir Hills. The present day Karbi Anglong District is a literal translation of the Mikir Hills. This vast tract of land in the centre of the state is the habitat of the Mikirs or the Karbis. The Karbis who live in the western portion of the district have retained their tribal characteristics while those settled down near Gauhati have already lost many tribal traits.

The work is an indepth study of the Karbis from the sociological perspective and takes into its purview their origin and growth, social and political system, economy and education, customs and traditions, beliefs and superstitions, legends and language. All put together, the enormous range of aspects makes this study truly an overview of the Karbis hilly people. The book holds the promise of making an enlightening and interesting reading.

It is known history that Dr. BR Ambedkar's intense struggle against the British rulers and the Indian society and its leaders resulted in recognizing for the first time the political rights of dalits in the Communal Award of 1932 given by PM Ramsay MacDonald after the debates and decisions of the Round Table Conferences. Like other communities, dalits were also given separate electorates to send their representatives to the central and provincial assemblies. With this the political and social identity of the dalits got established. The Hindu society and its leaders led by Mahatma Gandhi were dead against this happening. The manuwadi mindset was at work.

Patriarchy is a social system in which men hold primary power and predominate in roles of political leadership, moral authority, social privilege and control of property.

Some patriarchal societies are also patrilineal, meaning that property and title are inherited by the male lineage. Patriarchy is associated with a set of ideas, a patriarchal ideology that acts to explain and justify this dominance and attributes it to inherent natural differences between men and women. Women folk internalised the norms pointed by Manu that, "a woman who controlling her thoughts, speech and acts violates not her duty toward her lord, dwell with him after death in heaven and is called 'sadhvi', a chaste woman, a faithful wife "(Ibid: 584).

Ambedkar on Caste and Untouchability / Himanshu Mishra

New Delhi: Writers World, 2023

232p.; 23 cm.

Bibliography Includes Index.

9788195669349

650gm.

\$ 44.00 / hb

Ambedkar was born into the "untouchable" caste of Mahars in the Indian state of Maharashtra. At the time, untouchables suffered under legal restrictions that made the Jim Crow laws of the United States look mild by comparison. They traditionally performed jobs considered "unclean" by Hindu theology: a religious and economic catch-22 in which they were ritually unclean because of the work they did and could only do certain types of work because they were ritually unclean. They were not allowed to enter Hindu temples-in some regions they couldn't even walk on the road in front of a temple.

In the emerging era, life is becoming more and more complex, problematic and conflicting day to day. Stress is an unavoidable consequence of modern living. With the growth of industries, pressure in the urban areas, quantitative growth in population and various problems in day-to-day life are some of the reasons for an increase in stress. Stress has become a very common phenomenon of routine life, and an unavoidable consequence of the ways in which society has changed. This change has occurred in terms of science and technology, industrial growth, urbanization, modernization, and automation on one hand; and an expanding population, unemployment, and stress on the other.

The right to education is fundamental Human Right. Education is crucial for development of women. Rural women's access to education and training can have a major impact on their potential to access and benefit from income-generating opportunities and improve their overall well-being. Education without any doubt positively impacts the wellbeing of women in rural areas by enhancing their entrepreneurial skills and income. Education among rural women also benefits the rural economy in form of increased agricultural productivity.

Conducting good research requires first retraining your brain to think like a researcher. This requires visualizing the abstract from actual observations, mentally "connecting the dots" to identify hidden concepts and patterns, and synthesizing those contexts beyond the domain of the initial observations.

This book is broadly divided into two parts. Part One, entitled Modernization from the Top deals with the nature of the growth and development of the process of modernization. It is shown that ever since the colonial days, modernization has been imposed upon the common people by the political elite at the top: first the colonial British, and then the nationalist Indian.

The term gender role is defined as a set of cultural norms that precept the appropriate behaviors of people depending on their gender. For instance, Women are typically expected to dress in a feminine way and act well-mannered. On the other hand, men are generally predicted to be more aggressive and stronger Each society or ethnic group has its own culture, so this means every group has their expectations. Besides, it can change in the same society. Currently, we tend to sleep in a world that regularly stresses to us that every man is created with equity. Whereas this sounds nice at face worth, any scrutiny tells America that this is often removed from realistic and sadly might never be Individuals will examine any facet of society whether or not or not it's race, religion, language, level of education, sexual orientation or economic standing and spot that that exist various characteristics and factors of identity that alter others to treat others otherwise.

In Most regions of the world, women receive less formal education than men, and at the same time, women's own knowledge, abilities and coping mechanisms often go unrecognized. The Power relations that impede women's attainment of healthy and fulfilling lives operate at many levels of society, from the most personal to the highly public.

Women's equal participation and leadership in political and public life are essential to achieving the Sustainable Development Goals by 2030. However, data show that women are underrepresented at all levels of decision-making worldwide and that achieving gender parity in political life is far off. Data from 136 countries shows that women constitute nearly 3 million (34 per cent) of elected members in local deliberative bodies. Only two countries have reached 50 per cent, and an additional 20 countries have more than 40 per cent women in local government.

The present work is the result of an extensive analytical study made among the traditional lower caste women, viz. Harijan women in the southern part of the country. Through the present book, the author brings out the landmarks in the breakthrough of the status boundaries among Harijan women during the later years of post independent period in India. Several factors have contributed to the dynamics of status among these segregated sections of society. Along with these factors, this book tries to explain the process of motivation and actual involvement that have developed from among the members of group for such a revolutionary modification in the social life.

In Many countries, women have been underrepresented in the government and different institutions. This historical tendency still persists, although women are increasingly being elected to be heads of state and government. As of October 2019, The global participation rate of women in national-level parliaments is 24.5%. In 2013 women accounted for 8% of all national leaders and 2% of all presidential posts.

Sociology has allowed people to see beyond commonsensical views and discusses roles women have had throughout different generations. For decades, women were seen as the weaker sex and often as subordinates to men in all aspects of society such as family life and employment. Over the years, sociology has helped us view gender as more than women being women and men being men. It has allowed insight that masculinity does not always refer to men and femininity does not always refer to women as well as the characteristics that most people associated them with. Common-sense viewpoints are not as simple and narrowly focused as before. Genders migrate their characteristics into each other and faceless judgement.

The sociology of gender is one of the largest subfields within sociology and features theory and research that critically interrogates the social construction of gender, how gender interacts with other social forces in society, and how gender relates to social structure overall. Sociologists within this subfield study a wide range of topics with a variety of research methods, including things like identity, social interaction, power and oppression, and the interaction of gender with other things like race, class, culture, religion, and sexuality, among others. To understand the sociology of gender one must first understand how sociologists define gender and sex.

Education plays an important role in building self-confidence among women it also enables to change she/her status in the society. Education enables and builds confidence to take decisions in a better way. Skilling and Micro Finance can get women financially stable and therefore she is no longer dependent upon on others in the society. Giving education to women means giving education to the whole family. The Constitution of India has certain provisions that specifically focus on women empowerment and prevents discrimination against women in the society. Article 14

talks about equality before law. Article 15 enables the state to make special provisions for women. As the progress of humanity is incomplete without women therefore successive governments have launched number of schemes for empowerment of women in male dominated society.

Women's studies have attracted the attention of many social and biological scientists. The abundance of literature on women's life has helped mainstream societies to understand many dimensions of women's life. However, this has also resulted in the creation of many myths surrounding women and their capabilities. Amidst these myths and realities, many critical dimensions of women's life remained largely unexplored. And unfortunately, women's entry into robust professional life police has remained unattained till very late. Patriarchy is strong in Indian society and centered around women's lives inside the house. A large segment of scholars, including administrators and social workers, presented several writings about women's life.

Christians in Kerala are a Preponderant community, unlike in rest of the India. There are numerous Christian denominations in the state but socially they can be broadly categorised into two sects: The Syrian Christians and the Backward Christians. This work is an empirical analysis of the socio-economic state of affairs of these two groups during the past few decades.
