\$ 90.00 (Set)

[This book defines and explains the 1973 constitution with the help of the Case law of Pakistan, India and other countries. It also refers to the previous constitutions of Pakistan for guidance. Its special focus is on the Objectives Resolution, Division of Powers between the President and Prime Minister, the constitutional role of the Armed Forces, the role of the superior judiciary in interpreting the constitution and constitutional issues, Emergency provisions, Federalism and Islamic provisions, etc. There is also a significant discussion about the provision and enforcement of Fundamental Rights.

The author takes the reader step by step through each and every article of the constitution, discussing it threadbare and placing it in its proper juristic context. The first part is introductory. It contains sections on : Pakistan's Federation, State Religion, Objectives Resolution, Concept of Due Course of Law, Loyalty to State and High Treason (Article 6). The author gives his own views on the subject of Article 2-A (Objectives Resolution) and also cites the views of several well-known jurists. The decisions of various judges of the Supreme court of Pakistan and the four High courts are also incorporated. In this context, the speeches of the Quaid-e-Azam, Muhammad Ali Jinnah, Liaqat Ali Khan and Biharat Chandra Mandle (a minority representative) are also relied upon. He has also elaborated fundamental rights, relying upon support from the Holy Quran and the Judgements of the Superior courts of Pakistan and India and some other countries. Finally, the book highlights the role of "Principles of Policies" in the governance of the State and in the interpretation of Fundamental Rights.]
