\$ 35.00 -----

Architecture

Preservation and Conservation of Cultural Heritage in Indonesia / Edited by Eko Budihardjo
Yogyakarta : Gadjah Mada University Press, c1997
viii, 147 p.; ill.; 26cm.
979-420-426-9
\$ 40.00

[This book will try to put forward collection of ideas, policies, programs and activities regarding preservation and conservation of cultural heritage with special reference to the actual cases in Indonesia.

It will examine how the ancient monuments are preserved and monitored (such as the case of Borobudur and Prambanan temples, which had been designated as the world cultural heritage by (UNESCO) and how the historic districts in several Indonesian big cities are conserved (such as the case of Fatahillah Square in Jakarta or "Little Netherlands" in Semarang).]

Indigenous Architecture In Borneo : Traditional Patterns and New Developments / Edited by Robert L. Winzeler
Maine : The Borneo Research Council, INC, c1998
xi, 234 p.; ill.; 23 cm.

Art

Batik : spirit of Indonesia / Edited by Judi Achjadi

Jawa Barat : Yayasan Batik Indonesia, c1999.

232 p. : ill.; 36 cm.

9799580102

Includes bibliographical references and index.

With contributions by Rony Siswandi ... [et al.]

photography by Tara Sosrowardoyo, Perry Pieters, Firman Ichsan

\$ 60.00

[The story of batik is the story of Indonesia and the Indonesians. The dye-resist decorating technique and the cloth so-decorated have absorbed myriad influences trough their long history, yet the roots remain strong and dominant. Flexible yet tenacious, kneaded, pounded, and reshaped by the same storms that have buffeted the people, batik has inevitably sprung back with the same renewed vitality.]

The book relates the story of batik. It describes the meaning of batik to its makers and users, then explains how batik was transformed from a regional into a national product at the be best of Indonesia's first president, Soekarno, in the 1950s, and then into a product of international appeal. The last three essays are devoted to the diversification to batik into a furnishing fabric, a technique for the production of fine artworks, and a material for exclusive international fashion.]

Education

Notes on Education in Indonesia / Mochtar Buchori

Jakarta : The Asian Foundation, c2001

xx, 178 p.; 21cm.

Economics

Spontaneous Settlements in Indonesia - Agriculture Pioneers in Southern Sumatra : Migrations Spontanees En Indonesie (La Colonisation agricole du sud de Sumatra) / Edited by Muriel Charras, Marc Pain

Paris. : Departemen Transmigrasi, Institute Francais De Recherche Scientifique Pour Le Developpement En Cooperation, Center National De La Recherche Scientifique, c1993

405 p.; 30cm.

Includes 5 Folded Maps.

2-7099-1146-9

In English

\$ 80.00

From the Colonial era, under the title 'Kolonisatie', then following independence, under the title 'Transmigrasi', Indonesia undertook the most significant programme of population transfer and agricultural settlement ever attempted to date in tropical regions.

In the wake of the substantial movement, which without doubt has not allowed, as it was hoped the absorption of the demographic overflow from the centre but which has encouraged the process of national integration in an archipelago which stretches over 5000 kilometers, spontaneous migrations of an exceptional magnitude have sprung up.

Spontaneous migrations in the rural environment, which for a long time have been underestimated have taken a key role in the rapid transformations in the South-East Asian region, drastically changing the countryside and the economy. Although often criticised because they seem to be unmanaged, when analysed they are found to be a fully-fledged factor in the development, and should be recognized as such.

History

The Indonesian Language : Its History and Role in Modern Society / James Sneddon
Australia : University of New South Wales Press Ltd, c2003

240 p.; 23cm.

Includes Index.

0-86840-598-1

1. Indonesian Language - History

\$ 75.00

[This important book, the first of its kind, is a historical, social, cultural and linguistic study of Indonesian. It traces the origins and pre-colonial development of the language, the emergence of Classical Malay from the fourteenth century, the choice of Malay by the nationalist movement as the national language prior to independence, the planning associated with the adoption and implementation of the language, its borrowings from other languages, its use in contemporary Indonesia and its future. The book challenges many assumptions about Indonesian, Particularly counting the myth that Indonesian is a simple language.

Broadly accessible but academically strong, the book does not assume an expert knowledge of the language on the part of the reader. Engagingly written, it will be an

important book students of Indonesian at all levels, and those interested in Indonesia's history and contemporary culture.]

A cup of Java / Gabriella Teggia, Mark Hanusz
Jakarta : Equinox Publishing (Asia) Pte. Ltd, c2003
142 p.; ill.; 22 cm.
979-95898-9-4
\$ 30.00

[A cup of Java is the first dedicated exploration of the history and culture of coffee on the island of Java from far-away lands, to the little-known monks of Rawaseneng producing their prized coffee beans, readers are taken on a journey of their own through the lush coffee-growing slopes of Java's volcanic spine. A Cup of Java is a taste of the exotic – pleasing to the eyes with its stunning archival and contemporary photographs, and stimulating to the mind with its blend of daily rituals and mystical delights.]

Law

The Leiden Legacy : Concepts of Law in Indonesia / Peter Burns
Leiden : KITLV Press, 2004
Xvii, 307pp
Includes Index and Bibliography[273-295]
9067181757
\$ 60.00

The Dutch colonial power in Indonesia in the nineteenth century needed to clarify its understanding of the legal values and conventions of the people's whom it claimed to rule.

Dutch colonial lawyers tended to rationalize this legal culture, lumping together all kinds of indigenous legal customs from different areas as manifestations of *adat*recht or customary law. The status of this legal system vis-à-vis Dutch colonial law was a source of continual debate and disagreement. The champions of *adat*recht, known as the Leiden School, with C. van Vollenhoven in the forefront, scored a victory around 1927 when *adat*recht gained official recognition, though on the other hand it became the subject of mounting criticism. After World War II, the independent state of Indonesia paid lip service to *adat*recht principles, but in practice treated it as irrelevant, or even an embarrassment.
