The India Office Records (IOR) of the British Library, in London, include perhaps the richest scholarly resources anywhere on conditions in Burma in late British colonial times. The purpose of this guide is to provide a general introduction to sources in the IOR for the study of minority histories of Burma. The guide contains extensive lists of references, but it also contains introductory comments on the structure of the India Office Records as a whole, to help researchers make the best use of this wonderful historical resource. The primary focus is on English language sources relating to the period 1824–1948, but there are also brief comments on sources outside this frame of reference.

The postage stamps of Burma, like stamps of other countries the world over, are colorful visual record of its unique history, from the British colonial government through the Japanese occupation, the British military administration, Burmese independence, the revolutionary council, and the Burmese Way to Socialism. But what of the most significant event in Burmas modern history the pro-democracy uprising of 1988? No stamp depicts it. To fill this void, Min Sun Min has designed a few of his own stamps to commemorate this struggle for freedom and record the truth of this untold story in his countrys historical narrative.

This imaginative book features each stamp issued in Burma through 1988, ending with a series of specially created stamps to be issue one day, Min writer, when Burma is free
