\$ 10.00 / PB

Rice to the Occasion by Chef Tatung Sarthou, “Learning to cook was one of my fondest memories as a young boy. Cooking was not only fun, but also an engaging activity that taught me how to work with my hands, and become methodical and intuitive at the same time. It taught me to follow directions and repeat what I was instructed to do. But it also developed creativity; the more I cooked, the more I understood the fundamentals, and the freer I felt to cook without recipes. “I write this book to share Read more the wonderful gift I received from learning to cook. It is empowering, and makes children realize that they can do things with their hands to transform ingredients into something delicious and beautiful that can be shared with people they love. “By allowing children to succeed in cooking, you not only develop joy, pride, and confidence in their work, but you also teach them another valuable lesson, which is humility—to not be attached to either success or failure, as nothing is permanent. Cooking teaches that best, because food, no matter how perfectly made, perishes as soon as the dish is eaten or discarded. It teaches children to start over, aim for perfection every time, and develop their instincts by doing things correctly or wrongly, without judgement on their person...“More important, this cooking—more specifically, the recipes found in this book—allows children to immerse in the heritage of their family and community and develop values attuned to our culture, which is essential to self-identity and connectedness to their roots. This will foster not just a sense of independence, but also a sense of community.”— Chef Tatung Sarthou.

The Amen Vibration, Volume II / Echad (Richie Quirino)

Quezon City: Central Book Supply Inc., 2017

210p.

9786210202397

\$ 15.00 / PB

280gm.

This book is for seekers of truth beyond the teachings of parents, churches, schools, and communities. Forty years in the making, it includes the physical, mental, emotional and spiritual aspects of living, from the seemingly obvious to the occult, from the boundless diversity of paths toward Divine understanding and the unification of it all. The unity of the universe as functions of light and sound is explained and demonstrated in many examples. Light and sound are part of the same continuum of vibrations; they are simply different frequencies, as are things we see and hear, as well as microwaves, infrared light, and so on. At the heart of this continuum is the sound of the universe, the primordial Word: the Om of the Taoists, Aum of the Hindus and Buddhists, Amen of the Christians, Hu of the Ecks or the religion of Light and Sound and Hum of the Tibetans. These phenomena are explored by the author, who has experienced the discovery of one's self and place in the universe.

History

Shaw Boulevard / Popi Laudico

Manila: University of Santo Tomas (UST) Publishing House, 2018

ii, 70p. ; 21cm.

9789715068246

1. Philippine essays (English)

\$ 10.00 / PB

132gm.

Popi Laudico's *Shaw Boulevard* combines photography with lyric essays for an emotionally moving journey through the past. Like everyone's, Laudico's past is a complicated affair. Parents seem peculiar on the rare occasions when they're together—"Grownups," Laudico writes, "needed to take turns being with their kids", and home addresses seem permanent until they're not. The naïve narrator registers events, the photographs capture details, the reader feels the pain. But in Laudico's handling, childhood is also a place of wonder—trees talk, monsters live in closets, and cars change color overnight. Like dark chocolate, *Shaw Boulevard* is a bittersweet experience, irresistible, but best consumed in small servings. With this short, sharply observed memoir, a marvel of restraint, Laudico makes the portions exactly the right size.

-Tim Tomlinson

Popi Laudico captures, not just the sights, but the smells, the tastes, and, most significantly, the feel of that vanished season, and its mysteries... still unexplained, after all these years.

-Cristina Pantoja Hidalgo

The Diorama Experience is an encounter with the dioramas of Philippine history that have been a prominent attraction of Ayala Museum since its completion in 1973. Carved by artisans from Paete, Laguna, the dioramas are unique achievements in woodcarving as well as in miniature painting and decoration. They depict sixty major events and themes in history, from prehistoric Philippines to the recognition of Philippine independence by the United States in 1946. The exhibit culminates with People Power, a multimedia presentation that chronicles significant events, including the tumultuous 1950s and the riotous martial law years, that led to the First EDSA People Power Revolution in 1986..

Playing with the Big Boys covers Filipino basketball in a wider range of competitive and comparative alignments. Primarily, it traces the origins of the country's favorite game to the history and legacies of American colonialism. Moreover, the book extends the discussion beyond native-foreign, colony-empire, and local-global juxtapositions to situate imperialism in the context of regionalism and Asianization. The world is a major league for this book. While there are championships that are dominated by empires and superpowers, there are also countless derbies, international rivalries, regional crowns, and other real, imagined, and symbolic competitions that make basketball an important sport for many countries, including the Philippines.

Mabuhay maps out the temporal and geographic history of the Philippines, where every place shapes the narrative of a curious voyager as he unearths the history of the land and grows ever more connected to its people, from humble small-town residents to internationally renowned figures. This is the Philippines through the eyes of a uniquely positioned observer, a Spanish traveler—a stranger by all accounts, yet one so intimately familiar with Filipino history and culture.

Summoned to a secret gathering one stormy night by the mysterious Mrs. Enkanta, Nicole finds herself face to face with tikbalangs, kapres, and all sorts of engkantos--mythical creatures she had only heard about from her grandfather's stories. Together with new found friends, she embarks on a quest into the realm of myth and folklore where she fights alongside heroes of her childhood against an age-old terror. Follow in their footsteps as their adventure takes them through the familiar streets of Metro Manila and into a world more fascinating than they had ever imagined.

The main characters of the novel are Berta and Lucia. Berta is the stereotypic young woman from the barrio, while Lucia was the stereotypic lass from Manila. Being a barrio resident, Berta is presented by the author as shy and modest, while Lucia – being a city girl – was portrayed as impatient, devious, and disloyal. Berta is a vendor of local delicacies, the other characters in the story are Luciano, Tintoy, and Mang Pedro (literally "Mr. Pedro"). Luciano is a painter and an affluent customer of Berta. Tintoy is the husband of Lucia. Mang Pedro, as revealed at the end of the novel, turns out to be the wealthy father of Berta and the owner of the house in Manila where Luciano resides.

In this iconic novel from the imagination of the greatest Filipino writer in English Nick Joaquin, what lies hidden becomes uncovered by extraordinary circumstances.

Connie Escobar has always thought she had two navels. This does not sit right with her and she confides in her doctor Pepe Monson and requests that he remove one of the navels.

Her life takes a turn for the worse when she finds out her husband, Macho Escobar, was her mother's lover. Betrayed, she flees to Hong Kong where she faces even more unsettling truths.

Sharp and wounding, *The Woman Who Had Two Navels* is ultimately a tale of killing your illusions, no matter how deeply set, as Connie's hallucination of having two navels illustrates her desire to free herself from her traumatic childhood.

Sustaining the Archipelago : An Anthology of Philippine Eco-poetry / (Ed)

"Sustaining the Archipelago" is the first anthology of eco-poetry in the Philippines that collates 151 poems from over 80 poets all over the islands in four distinct themes: place, species, flora or fauna, disasters, and environmental justice. These themes document the Philippines' richly diverse environmental history through different responses that range from the admiration of the breathtaking surroundings of the tropics; wistful inquiry into the many different species discovered or undiscovered in its land, sea, and air; meditations on the surprises the country's vegetation still offers despite years of intimacy with its topography; the silent awe at its small beauties—the colorful sunsets, pristine beaches, magical waterfalls, tips of its mountains; the many names for the country's devastations—Sendong, Pinatubo, Yolanda,

habagat; musings and anger at what natural or manmade ecological destructions in the country unearth about its societal, economic, and political structures, and the indomitable Filipino spirit that presides throughout all these verses and words.

The eco-poems in this anthology are some of the best works from established, contemporary, and beginning poets. The poets here are biologists, teachers, environmental activists, policy-makers, musicians, and so much more. This diversity, fitting for a collection about the local environment, brings about the eco-poetics that has yet to be thoroughly discussed in the literary commons—the eco-poetics of the Global South. This anthology includes a Foreword from Greg Garrard (author of “Ecocriticism” and “The Oxford Handbook of Ecocriticism”) that comparatively analyses the Philippine environment’s imaginations with W.H. Auden’s selective poems, and an Introduction from Rina Garcia Chua that delves into the discourse of the archipelago’s limestones, the eco-poetics of the Global South, and what it means to live and uphold the traditions that survive these all.

Key Indicators for Asia and the Pacific 2017, the 48th edition of this series, includes the latest available economic, financial, social, and environmental indicators for the 48 regional members of ADB. It presents the latest key statistics on development issues concerning the economies of Asia and the Pacific to a wide audience, including policy makers, development practitioners, government officials, researchers, students, and the general public. A key component of the 2017 report is a summary of findings from three pilot household surveys to support the development of standardized methods and guidelines for collecting sex-disaggregated data on asset ownership.

The Cathedral of San Pablo is the most important Church in the whole of Laguna, Philippines. The years 2013 to 2016 were restoration years of the said Cathedral. It was a time where research and documentation of the Cathedral's history were done. The book presents the wonderful journey of Cathedral through the years through photographs gathered by the author and the most recent ones were his original photographs.

The original intention of the book is for the present and future generations to know, understand and love the Cathedral. It is also meant to be a memento of the 50th founding anniversary of the Diocese of San Pablo and the elevation of the Historic Church into the Cathedral of San Pablo.

Mary and the Roman Catholic Church / Rowel Ruste

Quezon City: Central Book Supply Inc., 2017

310p.

9786210203622

\$ 20.00 / PB

350gm.

This book details everything you need to know scripturally about Mary, Catholicisms memorized prayers, the Seven Sacraments, and more! This book was written with simplicity but is very insightful and biblical.

"A blistering repudiation of the Roman Catholic interpretation of the biblical Mary. The figure of Mary has always played a central role in the Catholic tradition, both theologically and sacramentally. Debut author Ruste, however, aims to show Mary's lionization as scripturally baseless. The first third of his book focuses squarely on her significance within Catholicism and attempts to overturn familiar teachings. For example, the author challenges the presumption that Mary was born sinless, which is at the heart of the Immaculate Conception doctrine. Furthermore, he asserts that she was never intended to be considered the mother of God, didn't remain a virgin after Jesus' birth, and is misguidedly worshipped as

if she were a divine personage. The author devotes the remainder of the book to characterizing traditional Catholic prayers as misconceived blasphemy and the sacraments as biblically unsound folly. Although Mary remains a recurrent theme, the real target of this study is Catholicism itself, which the author argues is not only riddled with falsehoods, but also morally suspect. Ruste, a self-proclaimed theological autodidact, largely avoids relying upon secondary literature and mainly rests his arguments upon his own selections from scripture. For someone without any formal training, his exegetical skill and breadth of knowledge is admirable; for example, he sometimes analyzes Catholic translations of the New Testament against the original Greek text." - Kirkus Indie - A review service from Kirkus Reviews

This book narrates various experiences of health and development workers in terms of persecution by State forces while they are in the line of duty in providing health care and development services to the populace. We also hope to create a venue for questions and exchanges with regard to health and human rights in the Philippines.
