This is a highly interdisciplinary book straddling physics and complex systems such as living organisms. The presentation is from the perspective of physics, in a manner accessible to those interested in scientific knowledge integrated within its socio-cultural and philosophical backgrounds. Two key areas of human understanding, namely physics and conscious complex systems, are presented in simple language. An optional technical presentation is also given in parallel where it is needed.

This book is the Magnum Opus dedicated to Mr Chi Yun Chang, a prominent historian as well as the founder of Chinese Culture University. This book illustrates the six elements of Confucius' teachings: Philosophy of Life Ethics,

Philosophy of Education, Philosophy of Creation, Political Philosophy,
Philosophy of Providence and Philosophy of Peace.

The book explains the value and significance of Confucius' teachings and also focuses on the modernization of the teachings. It ascertains that "to understand Confucius is to understand China, the Chinese people, Chinese history and Chinese culture". This book will be of interest to anyone who is interested in Confucius' teachings and its modern interpretations.

Lee Kuan Yew turns 90 this year and to celebrate his birthday, two of Singapore's leading newspapers, The Straits Times and Lianhe Zaobao, have put together this unique collection of photographs in a pictorial book capturing his public and private life.

Lee Kuan Yew: A Life in Pictures tells the story of the man who transformed an improbable country into the thriving metropolis it is now. Selected from over 35,000 photographs from a wide range of sources, including Lee's personal albums, it also captures private and loving moments between Lee and his wife and life-long partner Kwa Geok Choo, and the family they raised together.
