This book is uniquely structured and comprehensively discussed with contemporary decisions and pronouncements in Criminal Law in Ghana. A unique feature of this book is the discussion of every section in the Criminal and Other Offences Act.

The book contains:

Preliminaries where besides theory and history, there is a treatment of the nature of a criminal offence, sources of criminal law and courts with criminal jurisdiction, general explanations and exemptions.

Offences with force or violence such as homicides, genocides, assault, battery, kidnapping, abduction, sexual crimes, human trafficking and domestic violence.

The 54 page report was published after the three organisations conducted a study in order to develop a better understanding of the variance between the police and legislative frameworks that govern pre-trial detention and the conditions in detention facilities in Zimbabwe and to provide concrete recommendations to improve the situation. It may help if the Zimbabwe Prisons and Correctional Services could take a moment to go through the publication and consider implementing some of the recommendations and help avoid mutinies within the country's rehabilitation centres.

Civil Litigation in Nigeria : A Quick Reference Guide to Practice and Procedure / Ibrahim Abdullahi

\$ 35.00 / null

This book highlights in a most condensed form judicial pronouncements by the superior courts of records as they relate to practice and procedures in civil litigation in Nigeria. Judicial pronouncements on civil aspects of the law in Nigeria are on the increase, rendering brief-writing more challenging, if not herculean, in the absence of a resource guide for the citation of authorities and knowing which changes have taken place in the law. For lawyers not to be taken by surprise in courts when issues relating to practice and procedures are raised without notice, makes the need to have a resource book that should serve as a quick guide the more compelling. This book is thus intended to be a reference guide.

The book is a testimony of the writer's academic dexterity and penchant for the promotion of the law and legal development which he aptly demonstrated in the way and manner he presented legal principles within the context of judicial decisions obtainable across the hierarchy of Nigerian Judiciary. Dr. Ibrahim Abdullahi had been able, through this unique and pioneering approach, to bring to the door steps of the reader, in a lucid and simple manner, important legal principles on civil procedure, criminal procedure, law of evidence, family law and succession, land law, law of contract and commercial transactions, administration of estates, endowments and transfer of property.

Examined here are the legal and practical reasons for the inefficiency of the legal framework of creditor protection in Nigeria. This is amply justified considering the critical role of credit in the promotion of economic growth and development and also bearing in mind the near calamitous consequences the 2009 financial crisis unleashed not only among Nigerian banks and financial institutions, and in the international financial system. The latter nearly led to socioeconomic catastrophe in Nigeria, as well as globally. It is hoped that book is found useful by government, policy makers, academics, corporate financial experts, investment bankers and other stakeholders to initiate and implement efficient policy actions to protect creditors in order to sustain the flow of credit, the engine of any economy.

Though predominantly on oil and gas law, this is nonetheless a veritable Reference Book on the oil and gas industry in Nigeria. It places before anyone interested in the oil and gas industry basic and critical oil and gas issues not in common circulation in existing texts on the subject. The book is arranged in such a chronological order, like reference books and dictionaries tend to be, that a lay person in going through it would now know how oil is explored and found, how oil fields may be onshore and offshore, how oil blocs are bid for, how oil is drilled, including associated gas deposits, among others. The transportation of oil and gas, storage of oil and gas, refining of oil and processing of gas, marketing of oil and gas, the impact of oil and gas exploration, production and revenues on the Nigerian environment, politics and economy and a myriad of other issues are comprehensively covered.

Le dimanche 21 juin 1998, jour des élections municipales au Mali, à 03H30 du matin, une grenade éclate dans la cour du domicile du vice-président de la Commission électorale régionale de Ségou. L'attentat fait 2 morts et 10 blessés. Il est l'avatar d'une conspiration ourdie par le Collectif des partis politiques de l'opposition (COPPO) qui a juré d'empêcher « par tous les moyens » la tenue du scrutin. Les informations sur les préparatifs du boycottage et les cibles à attaquer dans la ville de Ségou sont fournies dans un manuscrit daté du 28 janvier 1998 intitulé « Rapport de synthèse des commissions du COPPO de Ségou ». L'Etat a eu vent du complot : un membre du groupe qui s'est rétracté a remis en main propre au Gouverneur de la région de Ségou une copie du manuscrit qui sera publié, in extenso, le 19 juin 1998 par le journal « les ECHOS ». A ce jour, les auteurs et les commanditaires de ce crime n'ont pas comparu devant une cour d'assises, l'Etat et l'appareil judiciaire à ses ordres ayant déployé toutes les ressources de la ruse et tous les ressorts de l'obstination pour étouffer l'affaire. Ce livre est le récit poignant des péripéties de ce déni de justice.

Nigerian labour and employment laws are not only complex but also continue to evolve. The last decade has witnessed a lot of changes and developments in the Nigerian labour and employment laws, and with implications for human resources practice. Among all the sources of the Nigerian labour laws, caselaws and International Conventions ratified by Nigeria are fast redefining employment law and the law of labour relations in Nigeria. Recent Developments in Nigerian Labour and Employment Law attempts a chronological presentation and appraisal of some of these changes and developments. Divided into 20 parts, the work provides an insight into some of the revolutionary changes and developments in the Nigerian labour and employment law in the last decade.
