Whither Nigeria / Goddy Ikeh  
Fortworth Communications Agency, Lagos, Nigeria 2019  
256p.  
9783125003  
\$ 30.00 / null  
292 gm.

A collection of articles on the economy, energy, politics, African affairs written by the author when he was the Managing Editor of Business Eye and Editorial consultant to Realnews magazine. Whither Nigeria is a poser on the very pertinent issues in these times when different narratives about Nigeria abound in the public sphere creating confusion on the national destination for many Nigerians.

Change is Going to Come : Ideas for the True Repositioning of Nigeria and Other Developing Countries / Tope Fasua  
SEVHAGE, Makurdi, Benue State, Nigeria 2015  
xxvi, 146p.  
9789785379976  
\$ 35.00 / null  
226 gm.

CHANGE IS GOING TO COME is a compendium of engaging essays and ideas for developing countries to rethink their state and get out of economic morass. It is not a political book but a book of interrogation on questions such as: What does change really mean? It contains common-sensical but overlooked solutions to problems such as the proper use of resources, thinking right socially and politically, and being realistic in an unrealistic environment. Put together by one of the Nigeria's finest rising economic analysts, it is a simple book written in a conversational manner that will help to get people thinking right – if they listen.

\$ 25.00 / null  
150 gm.

Before the onset of the self government and independence of the 1950s and 60s, the ruling colonial masters did not have to canvas for votes and make campaign promises. Indeed they expended low budgets on the welfare of Nigerian Peoples. Therefore progressive Nigerian communities through self-help efforts built up their social infrastructures like schools and inter-city roads. This spirit of communities implementing self-help projects spread across the country. At the same time Nigeria-owned businesses were growing alongside foreign companies. We had the Sir Ojukwus, the Odutolas, the Ajanakus, the Dantatas, and the Rabius. A strong laissez faire and "can-do" spirit was growing in the populace before self-government and Independence.

910 gm.

The availability, access, and consumption of nutritious food is extremely important. Despite declining arable agricultural land, Bangladesh has made substantial progress in boosting domestic food production, improving access to food by increasing household income, and enhancing nutritional outcomes. Nevertheless, the challenges to food and nutrition security remain formidable. Future agricultural growth and food and nutrition security are threatened by population growth, worsening soil fertility, diminishing access to land and other scarce natural resources, increasing vulnerability of crop varieties to pests and diseases, and persistent poverty leading to poor access to food. In addition, the impacts of climate change—an increase in the incidence of natural disasters, sea intrusion, and salinity—will exacerbate food and nutrition insecurity in the coming decades if corrective measures are not taken.

In this context, this book presents an array of research that collectively focus on securing food for all in Bangladesh. Specifically, this book has 15 chapters that address four broad issues: (1) agricultural technology adoption; (2) input use and agricultural productivity; (3) food security and output market; and (4) poverty, food security, and women's empowerment.

Rural banks and women empowerment / Milan Banik

Mittal Publications, New Delhi, India 2021

xviii, 218p.; 23cm.

Includes Bibliography and Index.

9789390692590

\$ 30.00 / HB

550 gm.

Since independence in 1947, the government of India, the Reserve Bank of India along with NABARD has made concerted efforts to provide the rural poor people with access to credit. Despite the phenomenal rise in the physical outreach of formal credit agencies in the last several decades, the disadvantaged sections of society including poor women continue to depend on informal sources of credit. Regular institutions have faced difficulties in dealing with a large number of small borrowers, whose credit needs are small, but their ability to offer collaterals is limited. Besides, cumbersome procedures and risk perceptions of the banks leave a gap in serving the credit needs of the poor. In the above background, micro-credit emerged as the best and practical alternative to the conventional banking in reaching the hitherto unreached poor population. This book assesses the role of LDRB, the only RRB in the study area, in advancing microcredit through NABARD's 'SHG-Bank Linkage Programme' (1992) and the GOI's 'Swarnajayanti Gram Swarozgar Yojana' (1999) in rural empowerment, especially, the empowerment of rural women in India, with special reference to Karbi Anglong District of Assam. Evaluating the performance of Self-Help Groups (SHGs) with a number of case studies, it tries to identify the factors that contribute to their successful performance and their sustainability. It also studies the level of participation of women in SHGs and examines the group dynamics that influence their participation in SHGs. The extent of involvement of the rural poor women in the microfinance institutions has also been analysed in details. Both the aforesaid programmes envisage organization of the rural women into SHGs for building their own capacities to manage the financial issues and then negotiate bank credit on commercial terms. This book deals with the role of RRB, microcredit and SHGs in the empowerment of rural women.

\$ 35.00 / null

80 gm.

Henri Djombo fait partie des écrivains qui occupent une position dominante dans le champ littéraire africain du XXI<sup>e</sup> siècle, en témoignent l'audience de ses œuvres et le nombre de prix littéraires les ayant consacrées. Engagé, celui-ci s'affirme tel un classique de la littérature du développement. Son dernier roman Sarah, ma belle cousine en est une preuve saillante. Le romancier y déploie magistralement sa vision du monde sur le développement de l'Afrique actuelle qui passe inévitablement par l'éducation et la formation de l'homme. Cette posture conditionne bien sa stratégie discursive qui repose sur trois axiomes essentiels, notamment l'exposition des faits, la dénonciation des antivaleurs et l'idéalisation de la vision de développement que corrobore son style.

An Alternative Development Paradigm for Nepal / Madhukar SJB Rana (Ed) Atul K Thakur

Vajra Publications, Kathmandu, Nepal 2021

xvi, 496p.

9789937624077

\$ 35.00 / null

460 gm.

Nepal's eminent public intellectual and Former Finance Minister Madhukar SJB Rana's remarkable writings and policy works had the guiding influence on Nepal's policymaking, his book "An Alternative Development Paradigm for Nepal" is a treasure trove as a single document to understand about the country's crucial development profile and fundamentals. Covering almost all the aspects of Nepal and South Asia's priorities, the book is uniquely rich and deserves a wide-readership and long shelf-life. The book is also important as a development history of Nepal, a democracy in transition. In the post-Monarchy phases, Nepal's democracy and realpolitik have shown unique characteristics. In the process of big shifts, Nepal's journey is worth a serious study. In the absence of a book written from the policy perspectives, it is difficult to get a one-stop solution. With his book (being published posthumously), Madhukar SJB Rana showed the way.

The Banker Who Crushed His Diamonds : The Yes Bank Story / Furquan Moharkan; (Foreword) Andy Mukherjee

Penguin Random house India Pvt. Ltd., Haryana, India 2021

x, 195p.; 22cm.

9780143451792

\$ 18.00 / null

250 gm.

On 28 September 2018, after announcing that he was going to step down as the managing director of YES Bank, Rana Kapoor had claimed: 'Diamonds are forever. My promoter shares of YES Bank are invaluable to me.' However, in a span of just fourteen months, Kapoor did a complete U-turn. He sold his entire stake in the bank, even as the shares continued to get hammered by investors.

Rana Kapoor and Ashok Kapur had founded YES Bank in 2004. On 5 March 2020, the Reserve Bank of India (RBI) took control of it in an attempt to avoid the collapse of the bank, which had an excessive amount of bad loans. .

What led to one of the biggest banking failures in Indian history? Who is Rana Kapoor and, more importantly, what role did he play in the rise and fall of YES Bank?.

Furquan Moharkan takes you right to the start of Rana Kapoor's career as a banker, charting his meteoric rise, his mercurial personality, the lavish lifestyle and the unravelling of it all. Kapoor's story runs parallel with that of the fourth largest private bank in India. In what feels like a story straight from a financial thriller, *The Banker Who Crushed His Diamonds* uncovers the rot deep within YES Bank's glittering success story. It serves as much as a cautionary tale as it exposes the chink in India's armour against financial chaos.

Evaluating the Malaysian Economy (2009-2018): Growth, Development and Policies / Irwan Shah Zainal Abidin

UUM Press., Malaysia 2020

xvi, 220p.

Includes Index ; Bibliography

9789672363149

\$ 24.00 / null

362 gm.

Malaysia was once on the cusp of becoming one of the 'Asian Tigers' as a result of the impressively high growth rates recorded in the early 1990s. From 1990 until 1997, the growth rate was above 9 percent per annum on average. This performance came to an end when the economy was struck by the 1997/98 Asian Financial Crisis, the worst economic crisis Malaysia has ever experienced since independence. Things eventually worsened with the onslaught of the 2008/09 Global Financial Crisis, which dragged the Malaysian economy yet into another round of a recession with the growth rate contracting at 1.5 percent in 2009. On hindsight, these two events, which have had a substantial impact on the state of the Malaysian economy, pointed to several urgent calls for economic reforms, such as the need to address structural weaknesses of the economy and to have a growth target which is both sustainable as well as inclusive. When Datuk Seri Najib Razak became the sixth Prime Minister of Malaysia from April 2009 until May 2018, it was clear that a new approach to economic development for Malaysia had to be crafted. Towards this end, he introduced the National Transformation Policy (NTP), so that the economy can be transformed into one that is of high-income and developed status by the year 2020. He also set a new vision for Malaysia, also known as the 2050 National Transformation, or TN50, which is meant to chart a new course for Malaysia to move into the second half of the 21st century. How successful is this transformational agenda? What are the other issues and challenges which need to be addressed? What important lessons can we learn from this transformational journey? This book is an attempt to address these specific questions by assessing Najib's economic plans, policies, programmes and vision which evolved during the nine years of his term as the sixth Prime Minister of Malaysia.

Too Much Money: How Wealth Disparities Are Unbalancing Aotearoa New Zealand / Max Rashbrooke (Ed)

Bridget Williams Book Ltd, New Zealand 2021

9781988587943

\$ 40.00 / null

450 gm.

Today, someone in the wealthiest 1 per cent of adults – a club of some 40,000 people – has a net worth 68 times that of the average New Zealander.

Too Much Money is the story of how wealth inequality is changing Aotearoa New Zealand. Possessing wealth opens up opportunities to live in certain areas, get certain kinds of education, make certain kinds of social connections, exert certain kinds of power. And when access to these opportunities becomes alarmingly uneven, the implications are profound.

This ground-breaking book provides a far-reaching and compelling account of the way that wealth – and its absence – is transforming our lives. Drawing on the latest research, personal interviews and previously unexplored data, Too Much Money reveals the way wealth is distributed across the peoples of Aotearoa. Max Rashbrooke's analysis arrives at a time of heightened concern for the division of wealth and what this means for our country's future.

Expensive Poverty : Why Aid Fails And How It Can Work / Greg Mills (Ed) Sally Hines

Pan Macmillan South Africa, Johannesburg, South Africa 2021

xxiv, 432p.

Includes Index

9781770107373

\$ 40.00 / null

558 gm.

Africa has received \$1.2 trillion in development assistance since 1990. Even though donors have spent more than \$1 000 per person over these 30 years, the average income of sub-Saharan Africans has increased by just \$350. The continent has very little to show for this money, some of which has been consumed by the donors themselves, much of it by local governments and elites. There must be a better way to address the poverty pandemic.

Expensive Poverty is focused on answering the trillion-dollar question: why have decades of spending had such a small impact on improving the lives of the poor? Whatever the area of aid expenditure – humanitarian, governance, military, development – the overall intention should be the same: to try to reach the point that aid is no longer necessary.

Expensive Poverty lays out how to get there.

Covid 19 and the Dialectics of Global Pandemics in Africa : Challenges, Opportunities and the Future of the Global Economy in the Face of COVID-19 / Munyaradzi Mawere, Bernard Chazovachii and Francis Machingura (Eds)

Langaa RPCIG, Bamenda, Cameroon 2021

336p.; 229x152mm.

9789956552023

\$ 55.00 / null

492 gm.

The prevalence of global pandemics has been timeless and universal. In 1918, the Spanish Flu grounded Spain and her neighbours. In 1997, 2014 and 2020, the Ebola virus wreaked havoc in West Africa in the same manner that polio had ravaged the globe. Since 2019, the Coronavirus has forced most economies onto a downward spiral. Despite concerted global attempts at observing World Health Organization guidelines, the Coronavirus has been changing peoples' lives, forcing most economies onto their knees, endangering lives and livelihoods, making a mockery of global medicine and causing the widespread despair and helplessness that has come to be known as 'the new normal'. Unlike the other pandemics, the mayhem, complexities and dialectics caused by Covid-19 have been matchless, requiring a systematic study and necessitating a volume like this one. The volume's 16 well-researched chapters argue that despite Covid-19's enormous lessons and predictions about even greater future pandemics, humanity can ill-afford to relent in its determination to conquer the pandemic in the same way that human resolve has defeated past pandemic. As such, the volume provides hope and direction to the global community on how best to deal with Covid-19 and pandemics of similar or even higher magnitude in the future.

Friendship with a Purpose : Malawi and Scotland for Sustainable Development /  
Kenneth R. Ross

Mzuni Press, Mzuzu, Malawi 2020

48p.; 216x216mm.; Colour Photographs.

9789996060663

\$ 20.00 / null

120 gm.

Poverty and underdevelopment continue to present a profound challenge globally. The United Nations' Sustainable Development Goals suggest that "Partnership for the Goals" will be key to success. This booklet explores the innovative people-to-people partnership developed by Malawi and Scotland during the 21st century. It identifies distinctive features of this international collaboration:

- The priority of the relational
- The mobilisation of civil society
- Government in synergy with people
- A reciprocal partnership for development

This is a model that invites emulation and challenges Malawians and Scots to be ambitious as they work together for sustainable development.
